Announcement to our Readers

We are glad to announce that Volumes II (1953), III (1954), IV (1955) and V (1956) of our Journal — for a long time exhausted — are now available by Swets & Zetlinger N. V. (Amsterdam), who has just reprinted them.

Volume I (1952), also exhausted, is now being reproduced too, and will be available in the near future.
