

INSTRUCTIONS TO AUTHORS

Authors wishing to have papers published in the *JOURNAL* should communicate them to any one of the editorial board, choosing one in their own country where possible.

Authors are urged to ensure that their papers are written clearly and attractively, in order that their work will be readily accessible to readers.

Manuscripts should be typed in double spacing on one side of the paper only, with references listed at the end in alphabetical order of authors. Drawings should be done in Indian ink on plain white or transparent paper, and should not be larger than 15 in. by 24 in. Lettering should be shown clearly in pencil for reproduction by the printer, and as far as possible information relating to a figure should be placed in the caption rather than on the figure. A typed list of captions should be provided at the end of the manuscript. Proofs of papers from overseas will usually be despatched to authors by airmail. There is no charge for publication. Authors are entitled to receive 50 offprints of a paper in the *JOURNAL* free of charge, and additional offprints can be purchased if ordered in advance.

JOURNAL OF PLASMA PHYSICS

Volume 49 Part 2 April 1993

CONTENTS

Net inverse-bremsstrahlung (NIB) acceleration of a high-energy electron beam in an axial electrostatic wave S. H. KIM	161
Spontaneous free-electron two-quantum Stark emission in an arbitrary direction from a zero-temperature electron beam S. H. KIM	181
Theory of modulational interaction of two coupled waves. Part 1. General formulae for a nonlinear medium SERGEY V. VLADIMIROV AND VADIM N. TSYTOVICH	197
Theory of modulational interaction of two coupled waves. Part 2. Instability of pump Langmuir waves SERGEY V. VLADIMIROV AND VADIM N. TSYTOVICH	207
Two-fluid electromagnetic instability in a self-consistent inhomogeneous plasma with saturated magnetic shear K. KATOU AND H. MAMADA	219
Rayleigh surface waves along the boundary between a plasma and a metallic screen S. T. IVANOV, K. M. IVANOVA AND E. G. ALEXOV	227
Effect of collisions on the nonlinear mixing of electromagnetic waves in plasmas L. STENFLO	237
Self-focusing and filamentation of laser beams in collisional plasmas with finite thermal conduction GHANSHYAM AND V. K. TRIPATHI	243
An action principle for the Vlasov equation and associated Lie perturbation equations. Part 2. The Vlasov–Maxwell system JONAS LARSSON	255
Nonlinear sausage-wave propagation in a magnetic slab in an incompressible fluid M. S. RUDERMAN	271
On the existence of weak stationary electron-acoustic double layers R. L. MACE AND M. A. HELLBERG	283
Models of laser plasma ablation. Part 4. Steady-state theory: collisional absorption flow G. J. PERT	295
Nonlinear stability of surface waves in magnetic fluids: effect of a periodic tangential magnetic field YUSRY O. EL-DIB	317
Excitation and reflection of ion-acoustic waves by a gridded plate and a metal disk Y. NAKAMURA, T. ITO AND K. KOGA	331
