GUIDELINES FOR AUTHORS

The *Australian Journal of Indigenous Education* is a peer reviewed research journal publishing articles in the field of Indigenous education, broadly defined. It is the only journal for educators devoted specifically to issues of practice, pedagogy and policy in Indigenous education in Australia. The journal has an international audience and is highly valued by its readers as a reliable source of information on Indigenous education issues.

Manuscripts may be accepted for publication, returned for revision or rejected. However, every effort will be made to help authors bring their manuscript up to the required standard for publication. Minor amendments may be made by editorial staff following review to ensure that reasonable standards of content, presentation and readability are maintained. The editors' decision is final.

In addition to the above, *Australian Journal of Indigenous Education* welcomes brief reports (500–1500 words) on program development, policy development or research. Acceptance for publication will be on the basis of review by the editorial team.

COPYRIGHT: It is a condition of publication that copyright is assigned by the author(s) to the publisher. Copyright assignment forms will be sent to authors on receipt of their papers.

GENERAL STYLE GUIDELINES

- Contributions should follow the format and style described in the *Publication Manual of the American Psychological Association* (6th ed). Spelling and punctuation should conform to *The Macquarie Dictionary* (5th ed). For matters of style not covered in these two publications, *the Style Manual for authors, editors and printers* (6th ed) should be consulted.
- Uncommon abbreviations and acronyms should be explained. Do not use underlining except to indicate italics. Full stops should not be used in abbreviations or acronyms (e.g., NSW).
- Use single quotation marks to introduce a word or phrase used as an ironic comment, as slang, or which has been coined. Use quotation marks the first time the word or phrase is used; do not use them again. Do not use quotation marks to introduce a technical or key term. Instead, italicise the term.
- Do not use any footnotes. Endnotes should be kept to a minimum and listed at the end of the text under the centred heading 'Endnotes'. Acknowledgments should be placed at the end of the article with a separate heading.
- A list of figure captions should follow the tables in the manuscript.

- References should follow the format and style described in the *Publication Manual of the American Psychological Association* (6th ed).
