CORRIGENDUM

Proceedings of the Nutrition Society

CONTENTS OF VOL. 43, No. 2, JUNE 1984

SYMPOSIUM PROCEEDINGS

Three Hundred and Eighty-ninth Scientific Meeting

One Hundred and Fifty-third Scottish Meeting

School of Agriculture, King Street, Aberdeen

15/16 SEPTEMBER 1983

MODEL SYSTEMS IN NUTRITIONAL RESEARCH

Chairmen: A. C. FIELD, Moredun Institute, Edinburgh

J. L. CLAPPERTON, Hannah Research Institute, Ayr

	PAGE
CZERKAWSKI J. W. Microbial fermentation in the rumen	101-118
POGSON CHRISTOPHER I., CARPENTER WILLIAM R., COOK JONATHAN S., FISHER MICHAEL J., LOMAX MICHAEL A., SALTER MARK & STANLEY JOHN C. A critical approach to the use of isolated liver cells for the study of metabolic events	119-132
DILS R. R. Explants and disaggregated tissue preparations as model systems in nutritional research: advantages and pitfalls	133-140
PORTEOUS JOHN W., HUTCHISON JAMES D. & UNDRILL VALERIE The lumenally- and vascularly-perfused small intestine as an experimental system for the study of translocation and metabolism	141-160
MORTIMORE GLENN E. & SURMACZ CYNTHIA A. Liver perfusion: an in vitro technique for the study of intracellular protein turnover and its regulation in vivo	161-177
JONES COLIN T., MICHAEL ENID, LAFEVER HARRIE N. & BAND G. C. Models for nutritional research on the fetus: problems and pitfalls	179-188
RENNIE M. J. & HALLIDAY D. The use of stable isotope tracers as metabolic probes of whole-body and limb metabolism	189-196
MILNE J. A. & MAYES R. W. The use of simple compartmental models in sheep metabolism studies	197-204

WORKSHOP PROCEEDINGS

Three Hundred and Ninety-first Scientific Meeting

Arts Centre Conference Room, University of Warwick

30 SEPTEMBER 1983

TEACHING NUTRITION TO THE PUBLIC AND THE PROFESSIONS

Chairmen: JENNY SALMON, Camberley, Surrey

SHEILA TURNER, Department of Science Education, University of London

SYLVIA ROBERT-SARGEANT, Burson-Marsteller, London

D. H. SHRIMPTON, British Nutrition Foundation, London

NEUBERGER A. Opening address	205-208
SALMON JENNY What is nutrition education and its purpose?	209-210
TURNER MICHAEL The mass media and other channels for nutrition information	211-216
TURNER SHEILA Nutrition and health in the community	217-218
LLOYD JUNE K. Nutrition and the training of doctors	219-221
CRADDOCK D. Nutritional problems encountered in general practice	223-225
WILLIAMS D. R. R. Nutrition education appropriate for the long-term management of diabetes in the community	227-229
ROBERT-SARGEANT SYLVIA Opportunities in today's school curriculum	231-232
MANSELL SHARON & SALMON JENNY The Nuffield Home Economics project	233-237
BLTYHE C. R. The Norwegian nutrition campaign: setting goals and assessing results	239-241
HAUTVAST J. G. A. J., HAMMINK J. & CRAMWINCKEL A. B. Nutrition education policy and education programmes for kindergarten and primary schools in The Netherlands	243-245
SHRIMPTON D. H. Concluding remarks	247

ABSTRACTS OF COMMUNICATIONS

Three Hundred and Ninety-third Scientific Meeting

Guy's Hospital Medical School, London

15 DECEMBER 1983

BURLEY VICTORIA, LEEDS ANTHONY R., ELLIS PETER R. & PETERSON DAVID B. Wholemeal guar bread: acceptability and efficacy combined. A study of blood glucose, plasma insulin and palatability in normal subjects	48A
MANSARAY Y. K. C. & GRIMBLE R. Lactose production, milk volume and lactose synthetase (EC 2.4.1.22) activity in rats fed on diets of varying protein adequacy	49A
