PROCEEDINGS OF THE 38TH MEETING OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION, London, 27-28 March 1963	215

Summary: Every article should have a short summary complete in itself and understandable without reference to the paper.

References: Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. Bibliographical details should be in the following order: author's name, initials, year, title of paper, title of journal (abbreviated according to the World List of Scientific Periodicals), volume of journal, first page of paper. References should be listed in alphabetical order.

Examples:

DONALD, H. P., & PURSER, A. F., 1956. Competition *in utero* between twin lambs. *J. agric. Sci.*, **48**: 245.

HAMMOND, J., 1932. *Growth and the Development of Mutton Qualities in the Sheep*. Oliver & Boyd, Edinburgh.

In the text, references should be made by giving author and year; papers with more than three authors should be referred to as, for example, Hammond *et al.*; three or fewer authors should be written in full.

Proofs are supplied once in galley form and must be returned corrected to the Editors within seven days. Only minor corrections will be accepted; other alterations (apart from those due to printer's errors) will be charged to authors.

Reprints: Twenty-five reprints of each paper will be supplied free to authors on request. Further copies may be purchased if the order is sent at the galley proof stage.

Animal Production is published three times a year, each number consisting of about 96 pages. Annual subscription for every 3 numbers is 45s. (or \$7.50 in the U.S.A. and Canada) and the price for a single number is 17s. 6d. (or \$2.75).

Business matters, including regular subscriptions and sales (the current Journal, back numbers, the *Proceedings of the British Society of Animal Production* (predecessor to *Animal Production*), and reprints), should be addressed to Messrs. Oliver & Boyd Ltd., Tweeddale Court, 14 High Street, Edinburgh, 1.

Editors: GERALD WIENER, A.R.C. Animal Breeding Research Organisation.
J. F. D. GREENHALGH, Rowett Research Institute.

Front cover centrepiece: From rock painting (about 4000 B.C.) at Tassili (Sahara desert)
