THE LAMMERGEYER, Volume I, No. 1. From the Secretary, Natal Parks, Game and Fish Preservation Board, P.O. Box 662, Pietermaritzburg. Price 2s. 6d.

The first number of this new journal contains, very appropriately, two articles on the square-lipped (or white) rhinoceros, of which the southern form *Ceratotherium simum simum* occurs only in Natal. All the latest information about the habits and distribution of this rare and splendid beast is given.

The journal contains also interesting material, natural history notes and a map showing the national parks and reserves of Natal.

It will be published irregularly whenever suitable material is available.
