

# SEIFERT

## X-RAY TUBES

The SEIFERT diffraction X-ray tubes SN 60 with normal focus and SF 60 with fine focus are featured by a high primary intensity at a homogeneous intensity distribution, spectral purity, and a long lifetime.

# The Scintag Peltier X-ray Detector: *The New Industry Standard in X-ray Diffraction*

## Another first from Scintag!

Scintag's exclusive second-generation Peltier-cooled x-ray detector for powder diffractometers is a breakthrough in x-ray diffraction. Without the need for liquid nitrogen cooling, Scintag's new detector provides all of the benefits of a solid state detector and more:

- **Better sensitivity**
- **Superior peak-to-background ratios**
- **No alignment required**
- **No routine maintenance required**

For the latest innovations in powder diffraction, Scintag is the clear choice. Contact us today for our brochure and a complete system demonstration, and judge for yourself.
