EARTH SCIENCES

Volume 87 Parts 1 & 2

PUBLISHED BY THE ROYAL SOCIETY OF EDINBURGH

22 GEORGE STREET · EDINBURGH · EH2 2PQ

1996

Editorial Board

J. B. DAWSON
University of Edinburgh
(Chairman)

C. H. DONALDSON
University of St Andrews
(Executive Editor)

E. N. K. CLARKSON
University of Edinburgh

A. E. FALLICK
S.U.R.R.C., East Kilbride

D. J. FETTES
British Geological Survey, Edinburgh

J. H. HULL
British Geological Survey, Edinburgh

A. L. PANCHEN
University of Newcastle upon Tyne
(Executive Editor)

B. J. BLUCK
University of Glasgow
(Executive Editor)

J. D. PEACOCK
Heriot-Watt University

T. P. SCOFFIN
University of Edinburgh

F. WILLETT
(Curator)
University of Glasgow

Consulting Editors

SHOHEI BANNO
Kyoto University

W. L. BROWN
Centre de Recherches Pétrographiques et Géo-chimiques,
Vandoeuvre-les-Nancy

R. L. CARROLL
McGill University, Montreal

B. W. CHAPPELL
Australian National University, Canberra

J. M. COLEMAN
Louisiana State University, Baton Rouge

J. F. DEWEY
University of Oxford

S. J. GOULD
University of Harvard

R. W. HUTCHINSON
Colorado School of Mines

J. KONTA
Charles University, Prague

D. B. MCINTYRE
Kinfauns, Perth

K. J. MÜLLER
Rhein. Friedrich-Wilhelms-Universität Bonn

D. F. STRONG
University of Victoria, B.C.

V. C. THAKUR
Wadia Institute of Himalayan Geology

S. UYEDA
University of Tokyo

R. WOODALL
Western Mining Co., Adelaide

Publications Manager, Royal Society of Edinburgh: T. Dart

COPYRIGHT: It is the policy of the Royal Society of Edinburgh not to charge any royalty for the production of a single copy of any one article made for private study or research. Specific permission will not be required for photocopying multiple copies of copyright material, to be used for *bona fide* educational purposes, provided this is done by a member of the staff of the university, school or other comparable institution, for distribution without profit to student members of that institution and provided the copies are made from the original journal. Requests for the copying or reprinting of any article for any other purpose should be sent to the Royal Society of Edinburgh.

Transactions of the Royal Society of Edinburgh: Earth Sciences publishes one volume per year usually in three or four parts. Volume 87 will be published in 1996 in three issues: Vol 87 1/2 (double issue), 87.3 and 87.4. An annual subscription costs £94. Orders should be placed with CAB International (to whom cheques should be made payable), Wallingford, Oxon OX10 8DE, UK. (Tel 01491 832111; Fax 01491 826090.)

Transactions is indexed in the following: Current Contents/Physical, Chemical & Earth Sciences, SciSearch, CABS Database, Mineralogical Abstracts, Biosciences Information Service, Geoabstracts and GEOBASE.

Third Hutton Symposium The Origin of Granites and Related Rocks

Proceedings of a Symposium held at the
University of Maryland at College Park
27 August to 2 September 1995

Edited by M. Brown, P. A. Candela, D. L. Peck, W. E. Stephens,
R. J. Walker and E-an Zen

CONTENTS

BROWN, M. Preface	v
THOMPSON, A. B. Fertility of crustal rocks during anatexis	1
PATIÑO DOUCE, ALBERTO E. Effects of pressure and H ₂ O content on the compositions of primary crustal melts	11
BARBOZA, S. A. and BERGANTZ, G. W. Dynamic model of dehydration melting motivated by a natural analogue: applications to the Ivrea–Verbano zone, northern Italy	23
BEA, F. Controls on the trace element composition of crustal melts	33
WATSON, E. B. Dissolution, growth and survival of zircons during crustal fusion: kinetic principals, geological models and implications for isotopic inheritance	43
HOLTZ, F., SCAILLET, B., BEHRENS, H., SCHULZE, F. and PICHAVANT, M. Water contents of felsic melts: application to the rheological properties of granitic magmas	57
DINGWELL, D. B., HESS, K.-U. and KNOCHE, R. Granite and granitic pegmatite melts: volumes and viscosities	65
RUSHMER, T. Melt segregation in the lower crust: how have experiments helped us?	73
SAWYER, E. W. Melt segregation and magma flow in migmatites: implications for the generation of granite magmas	85
WEINBERG, R. F. Ascent mechanism of felsic magmas: new and views	95
PETFORD, N. Dykes and diapirs?	105
PATERSON, S. R., FOWLER, T. K., Jr., and MILLER, ROBERT B. Pluton emplacement in arcs: a crustal-scale exchange process	115
ANDERSON, J. L. Status of thermobarometry in granite batholiths	125
NEKVASIL, H. and CARROLL, W. Experimental constraints on the compositional evolution of crustal magmas	139
HOGAN, J. P. Insights from igneous reaction space: a holistic approach to granite crystallisation	147
CHAPPELL, B. W. Compositional variation within granite suites of the Lachlan Fold Belt: its causes and implications for the physical state of granite magma	159
COLLINS, W. J. Lachlan Fold Belt granitoids: products of three-component mixing	171
NAKAJIMA, T. Cretaceous granitoids in SW Japan and their bearing on the crust-forming process in the eastern Eurasian margin	183

RAPELA, C. W. and PANKHURST, R. J. Monzonite suites: the innermost Cordilleran plutonism of Patagonia	193
DRUMMOND, M. S., DEFANT, M. J. and KEPEZHINSKAS, P. K. Petrogenesis of slab-derived trondhjemite–tonalite–dacite/adakite magmas	205
FLINDERS, J. and CLEMENS, J. D. Non-linear dynamics, chaos, complexity and enclaves in granitoid magmas	217
POLI, G., TOMMASINI, S and HALLIDAY, A. N. Trace element and isotopic exchange during acid–basic magma interaction processes	225
WIEBE, R. A. Mafic–silicic layered intrusions: the role of basaltic injections on magmatic processes and the evolution of silicic magma chambers	233
BAKER, L. L and RUTHERFORD, M. J. Crystallisation of anhydrite-bearing magmas	243
HANSON, R. B. Hydrodynamics of magmatic and meteoric fluids in the vicinity of granitic intrusions	251
BARTON, M. D. Granitic magmatism and metallogeny of southwestern North America	261
BLEVIN, P. L., CHAPPELL, B. W. and ALLEN, C. M. Intrusive metallogenic provinces in eastern Australia based on granite source and composition	281
LOWENSTERN, J. B. and SINCLAIR, W. D. Exsolved magmatic fluid and its role in the formation of comb-layered quartz at the Cretaceous Logtung W–Mo deposit, Yukon Territory, Canada	291
LONDON, D. Granitic pegmatites	305
PICHAVANT, M., HAMMOUDA, T. and SCAILLET, B. Control of redox state and Sr isotopic composition of granitic magmas: a critical evaluation of the role of source rocks	321
KROGSTAD, E. J. and WALKER, R. J. Evidence of heterogeneous crustal sources: the Harney Peak Granite, South Dakota, U.S.A.	331
JOHNSON, C. M., SHIREY, S. B. and BAROVICH, K. M. New approaches to crustal evolution studies and the origin of granitic rocks: what can the Lu–Hf and Re–Os isotope systems tell us?	339
CLARKE, D. B. Two centuries after Hutton’s ‘Theory of the Earth’: the status of granite science	353
INDEX – Authors of papers	361
