Powder Diffraction

Journal of Materials Characterization

Journal of the International Centre for Diffraction Data
<https://www.cambridge.org/core/journals/powder-diffraction>
Volume 40, Issues 1-4

eISSN: 1945-7413; ISSN: 0885-7156

Editor-in-Chief

Camden Hubbard, Applied Diffraction Services, USA

Managing Editor

Nicole Ernst Boris, International Centre for Diffraction Data, USA

Editors for New Diffraction Data

Stacy Gates-Rector, International Centre for Diffraction Data, USA
Soorya Kabekkodu, International Centre for Diffraction Data, USA

Associate Editor for New Diffraction Data

Frank Rotella, Argonne National Laboratory (Retired), USA

Editors

Xiaolong Chen, Institute of Physics, Chinese Academy of Sciences, China
José Miguel Delgado, Universidad de Los Andes, Venezuela
Norberto Masciocchi, Università dell'Insubria, Italy

Editors for Crystallography Education

James Kaduk, Poly Crystallography Inc., USA
Brian H. Toby, Argonne National Laboratory, USA

International Reports Editor

Winnie Wong-Ng, National Institute of Standards and Technology, USA

Calendar of Meetings and Workshops Editor

Gang Wang, Chinese Academy of Sciences, China

Advisory Board

Evgeny Antipov, Moscow State University, Russian Federation
Xiaolong Chen, Chinese Academy of Sciences, China
Jose Miguel Delgado, University de Los Andes, Venezuela
Steve Hillier, The James Hutton Institute, UK
Takashi Ida, Nagoya Institute of Technology, Japan
Matteo Leoni, University of Trento, Italy
Vanessa Peterson, Australian Nuclear Science and Technology Organisation, Australia
Mark Rodriguez, Sandia National Labs, USA
T.N. Guru Row, Indian Institute of Science, India
Allison Keene, Cambridge University Press, USA

Information about editors and editorial board members correct as of 1st January 2022. For the latest information please see <https://www.cambridge.org/core/journals/powder-diffraction/information/editorial-board>

Aims & Scope

ICDD's quarterly, and special topical issue, international journal, *Powder Diffraction*, focuses on materials characterization employing X-ray powder diffraction and related techniques. With feature articles covering a wide range of applications, from mineral analysis to epitactic growth of thin films to advances in application software and hardware, this journal offers a wide range of practical applications. ICDD, in collaboration with the Denver X-ray Conference Organizing Committee, has increased services for the subscribers of Powder Diffraction and authors of Advances in X-ray Analysis. Beginning in 2006, ICDD offered a copy of the previous year's edition of AXA to Powder Diffraction institutional subscribers who receive both print and on-line versions. This effectively doubles the number of articles annually available to Powder Diffraction subscribers and significantly increases the circulation for the authors in Advances in X-ray Analysis.

Subject coverage includes:

- Techniques and procedures in X-ray powder diffractometry
- Advances in instrumentation
- Study of materials including organic materials, minerals, metals and thin film superconductors
- Publication of powder data on new materials

International Centre for Diffraction Data

The International Centre for Diffraction Data (ICDD[®]) is a non-profit scientific organization dedicated to collecting, editing, publishing, and distributing powder diffraction data for the identification of materials. The membership of the ICDD consists of worldwide representation from academe, government, and industry.

CALENDARS OF MEETINGS, SHORT COURSES AND WORKSHOPS

Gang Wang	Calendar of Forthcoming Meetings (Occurring after 1 April 2025) doi:10.1017/S0885715625000016	102
Gang Wang	Calendar of Short Courses and Workshops (Occurring after 1 April 2025) doi:10.1017/S0885715625000028	104

On the Cover: The combined use of XRF and XRD with generalized spherical harmonic correction for preferred orientation modeling was shown to successfully describe the deposits in several systems. Knowing the deposit phases is often sufficient to enable corrective actions to be taken.
