THE INSTITUTE OF NAVIGATION

COUNCIL 1962-63

PATRON

H.R.H. PRINCE PHILIP DUKE OF EDINBURGH, K.G., K.T.

PRESIDENT

Dr. G. E. R. Deacon, C.B.E., F.R.S.

VICE-PRESIDENTS

Dr. D. E. Adams

Rear-Admiral E. G. Irving, C.B., O.B.E.

HONORARY TREASURER Mr. J. E. D. Williams

CHAIRMAN OF THE TECHNICAL COMMITTEE

Wing Commander E. W. Anderson, O.B.E., D.F.C., A.F.C.

CHAIRMAN OF THE MEMBERSHIP AND FELLOWSHIP COMMITTEE

Captain A. J. R. Tyrrell

MEMBERS OF COUNCIL

Captain R. C. Alabaster, D.S.O., D.F.C.	Wing Commander D. F. H. Grocott, A.F.C.
Mr. G. E. Beck	Lieut. Commander J. H. Hard- wick, R.N.
Captain M. E. Butler Bowdon, O.B.E., R.N.	Air Vice Marshal W. E. Oulton, C.B., C.B.E., D.S.O., D.F.C.
Mr. F. G. G. Carr, C.B.E.	
Mr. Francis Chichester	
Captain W. R. Colbeck, R.N.R.	Captain G. S. Ritchie, D.S.C., R.N.

The directors of navigation at the Admiralty, the Air Ministry and the Ministry of Transport and Civil Aviation are invited to attend meetings of the Council as *ex-officio* members.

EXECUTIVE SECRETARY M. W. Richey

CONTENTS

THE DUKE OF EDINBURGH'S LECTURE: NAVIGATION AND THE SCIENCE OF THE SEA. G. E. R. DEACON	1
THE ORGANIZATION OF SEABORNE TRAFFIC. L. OUDET	14
NAVIROUTES AND THE NORTH ATLANTIC. J. TRAZET	23
THE DEMARCATION OF TRAFFIC LANES BY LEADER CABLES. L. S. LE PAGE	38
SHORE RADAR CONTROL IN THE PORT ENTRANCE AREA. J. F. D. VAN HOOFF	45
SAFETY OF NAVIGATION ON INLAND WATERWAYS IN EUROPE. J. H. BEATTIE	49
MARINE TRAFFIC CONTROL IN THE PANAMA CANAL. R. L. KIMBALL AND J. R. SHEPARD	52
INCREASING RADAR TARGET INFORMATION. V. G. WELSBY AND D. E. N. DAVIES	62
SEPARATION OF AIRCRAFT IN THE APPROACH AND DEPARTURE PHASES. W. C. WOODRUFF	69
FLIGHT PLANS AND FLIGHT PROGRAMMES. J. E. D. WILLIAMS	79
SOME METEOROLOGICAL ASPECTS OF FLIGHT IN THE SUPERSONIC AGE. C. S. DURST	84
AUTOMATIC ALTITUDE REPORTING. B. W. GLOVER AND W. HADDOCK	91
THE RISK OF ENCOUNTERING HAIL IN FLIGHT. A. F. CROSSLEY	99
MATHEMATICS AND THE COLLISION REGULATIONS (Forum). F. J. WYLIE AND OTHERS	104
COLLISION AVOIDANCE IN THE AIR (Forum). E. P. FAIRBAIRN	112
ANOMALOUS RADAR PROPAGATION (Forum). G. R. COOPER	113
THE TRANSIT SYSTEM. R. B. KERSHNER AND R. R. NEWTON	129
A FIRST ATTEMPT TO OBTAIN A FIX FROM TRANSIT. W. NICHOLSON	144
NAVIGATIONAL AID FROM OTHER SATELLITES. H. C. FREIESLEBEN	149
IONOSPHERIC RESEARCH THROUGH TRANSIT. E. GOLTON	154
COLLISION-WARNING BY ELECTRONIC COMPUTER. W. HAACK AND F. R. GÜNTSCH	158
SITING A HARBOUR RADAR EQUIPMENT. G. J. A. LUMSDEN	164
TRUE MOTION IN RELATIVE DISPLAYS. B. W. MANLEY	172
THE NAVIGATION AND CONTROL OF SUPERSONIC AIRCRAFT. W. L. POLHEMUS	179
DOPPLER CORRECTION FOR SURFACE MOVEMENT (Forum). D. F. H. GROCOTT	220
NOTES ON HEAVY WEATHER IN THE ATLANTIC 1960 AND NORTH SEA 1961 (Forum). D. H. LEWIS	220
THE ARRANGEMENT OF NAVIGATIONAL EQUIPMENT IN MODERN CARGO VESSELS. A. WEPSTER	241

FOUR STEPS TO LONGITUDE. E. G. R. TAYLOR	257
MARINE RADAR TRAINING BY SIMULATOR:	
I—THE USE OF SIMULATORS FOR RADAR TRAINING. M. W. M. WEEKES	262
II—THE VALUE OF SIMULATOR TRAINING. E. O. JONES.	267
THE USE OF VLF TRANSMISSIONS FOR NAVIGATION. C. POWELL	277
THE MARINE RADAR PHOTO PLOT SYSTEM, S. R. PARSONS	289
PHOTOGRAPHIC RADAR AT SEA. D. W. SIMS	293
AIRCRAFT ACCIDENTS AND HIGH GROUND. T. FREER	296
PRECISION CELESTIAL NAVIGATION. H. H. SHUFELDT	301
PHILOSOPHY, RULES AND THE COLLISION PROBLEM (Forum). J. S. MORREL	325
MATHEMATICIANS AND NAVIGATORS (Forum). E. S. CALVERT	332
OCEAN ROUTING CHARTS (Forum). A. F. DICKSON	339
INTERPRETING ASTRO-POSITION LINES AT SEA (Forum). M. W. RICHEY	341

SUNDIALS FOR NAVIGATORS (Forum). M. BINI	447
CALCULATING THE SUN'S POSITION FOR CALIBRATION OF RADAR ANTENNAS (Forum). R. S. BLICQ	456
THE GESTATION AND BIRTH OF MY NAUTICAL TABLES (Forum). S. M. BURTON	460
COLLISION REGULATIONS (Forum). O. W. NEUMARK	465
RECORD	114, 225, 344
REVIEWS	121, 231, 351, 466

THE INSTITUTE OF NAVIGATION

THE OBJECT of the Institute is to unite in one body those who are concerned with or who are interested in the science and art of navigation. Membership is not restricted to those who hold professional qualifications, but is open to others who wish to further the aims of the Institute.

By coordinating the knowledge and achievements of marine and air navigators, scientists and those associated with the development and production of navigational equipment, the work of the Institute is directed towards raising the standard of navigation. In the field of education it is the aim of the Institute to bring practical navigators into contact with teachers and research workers to increase a common appreciation of the issues involved. It is an object of the Institute to encourage research in equipment and methods; through its publications it gives a wide circulation to original work on navigation so that new developments and suggestions can be appreciated by those most directly concerned with them.

The activities of the Institute include the holding of monthly meetings to discuss specific problems, the publication of a Journal and of other works concerned with different aspects of navigation, and such other activities as the Council may deem necessary to promote knowledge in navigation and its associated sciences.

The *Journal of the Institute of Navigation* is issued free each quarter to all members and contains a full account of the Institute's proceedings. It prints the papers which are presented at meetings, together with their ensuing discussion, and other original papers contributing to the science of navigation. It also contains a record of current navigational work, reviews of important books, and general papers of interest to navigators and those with similar interests.

The work of the Institute is coordinated with that of similar societies abroad, and in particular with the work of the United States and Commonwealth Institutes of Navigation, whose proceedings are available to members.

Membership. There are five classes of membership of the Institute:

(1) **HONORARY MEMBERS**, who shall be distinguished persons upon whom the Council may see fit to confer an honorary distinction.

(2) **FELLOWS**, who shall be members, of at least three years' standing who, in the opinion of the Council, have made a contribution of value to navigation.

(3) **MEMBERS**, who shall be persons over twenty-one years of age who can satisfy the Council of their interest in navigation.

(4) **STUDENT MEMBERS**, who shall be persons under twenty-five years of age studying with a view to making navigation, or an allied interest, their career.

(5) **CORPORATE MEMBERS**, who shall be companies, universities, navigation schools, government departments and other organizations, here and abroad, who are directly or indirectly interested in the science of navigation. Corporate Members are entitled to send representatives to all Institute meetings and to receive six copies of the *Journal*, and other publications. They are encouraged to take an active part in the Institute's work. Application should be by letter addressed to the Executive Secretary.

Subscriptions. Annual subscriptions to the Institute are payable in advance as follows:

Members and Fellows	Three guineas
Student Members	Half a guinea
Corporate Members	Thirty guineas

The Institute's financial year begins on 1 July. Members in any category who are elected after 1 January in any year are only due for one half of their subscription until 1 July, when the full subscription for the next year becomes due.
