

## Diplomacy for the Next Century

Abba Eban

**"Exceptionally well written.** [This book] is entirely free from jargon, obscurity, and cliché, and it has a concision and elegance that are rare in writing about international affairs....Eban is at ease with the history of diplomacy, early and recent, in a way that is rare today....The book is studded with crisp and illuminating characterizations of leaders with whom [Eban] worked."

—Owen Harries, *New York Times Book Review*

The Castle Lectures \$25.00

## Chechnya

Tombstone of Russian Power  
Anatol Lieven

**"Lieven...offers a compelling view of Russia's defeat in Chechnya** (based on his eyewitness account of the fighting), as well as a revisionist interpretation of Russia's role as a global power....A serious contribution to understanding both the implications of the Chechen war and the broader debate among scholars on appropriate interpretations of Russia's role in the post-Cold War period ahead of us."—*Kirkus Reviews*

12 illus. \$35.00

## Private Action and the Public Good

Edited by Walter W. Powell  
and Elisabeth S. Clemens

**"The nonprofit sector is a vital part of civil society.** Powell and Clemens have produced the best single collection of essays that explicitly explores the linkages between the public good, civil society, and the nonprofit sector. **It will help shape the debate for many years.**"—Mayer N. Zald \$40.00

## Seeing Like a State

*How Certain Schemes to Improve the Human Condition Have Failed*  
James C. Scott

**"One of the most profound and illuminating studies of this century to have been published in recent decades....A fascinating interpretation of the growth of the modern state....Scott presents a formidable argument against using the power of the state in an attempt to reshape the whole of society."**—John Gray, *New York Times Book Review*

36 illus. \$35.00

## The Soviet World of American Communism

Harvey Klehr, John Earl Haynes, and  
Kyrill M. Anderson

**"A work of extraordinary scholarship.** The authors leave no doubt that to speak of the party as autonomous is ludicrous and foolhardy."—Daniel J. Leab

**"The book illustrates very well the apparatus of control through which the Soviet comrades ran the American Party."**—Adam Ulam, *Washington Post Book World*

## Palestinian Citizens in an Ethnic Jewish State

*Identities in Conflict*  
Nadim N. Rouhana

**"A rich analysis of the circumstances, political and social responses, and collective identities of Palestinians who are citizens of Israel.** The book will be an important and provocative contribution to the discussion about future relations between Palestinians and Jews in Israel."

—Louis Kreisberg \$30.00

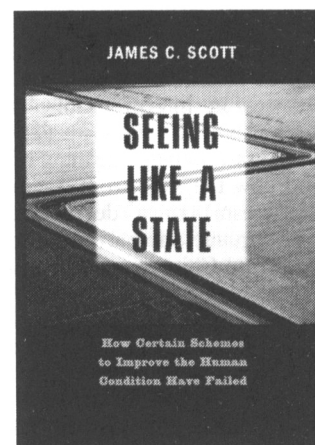

## Toward a Democratic Science

*Scientific Narration and Civic Communication*  
Richard Harvey Brown

**"An important book that speaks with great force to key issues in current social theory and sociological thought."**  
—Norman K. Denzin

**"Brown is a gifted theorist and critic. He has a keen sense of scientific discourse as rhetoric and deftly uses dialectical method, represented especially by the joining of science and politics as narration."**

—Herbert W. Simons illus. \$30.00

## The Pol Pot Regime

*Race, Power, and Genocide in Cambodia under the Khmer Rouge, 1975–79*  
Ben Kiernan

**"A deeply detailed, meticulously reported history...important, valuable and worth reading....Kiernan documents the killing with impressive specificity, using interviews with survivors to escort the reader to every part of the country....The testimony and documentation Kiernan amasses is quite powerful....This is after all a work of scholarship that will be one of the most widely used reference books on the Cambodian tragedy."**—Sydney H. Schanberg, *The Nation* 21 illus. \$18.00 paperbound

## The Democratic Wish

*Popular Participation and the Limits of American Government*  
Revised Edition  
James A. Morone

**"Morone's contribution to our understanding of state building...is substantial and profound."**—John S. Dryzek, *American Political Science Review*  
Winner of the 1991 Gladys M. Kammerer Award  
Selected as a 1991 Notable Book of the Year by the *New York Times Book Review*. \$18.00 paperbound

## Democracy, Dialogue, and Environmental Disputes

*The Contested Languages of Social Regulation*  
Bruce A. Williams and Albert R. Matheny

**"An excellent book....An impressive contribution to the study of social regulation, democratic theory, and hazardous waste politics and policy."**—Daniel Press, *American Political Science Review*

# The Best in Politics from Cambridge

## Power in Movement

Social Movements and Contentious Politics

Second Edition

**Sidney Tarrow**

*"This is unquestionably a seminal work, one that lies fundamentally in the literature on social movements...an exceptionally rich synthesis and weaving together of research and literature on social movements..."*

— **Studies in Comparative International Development**

*"The brilliance of this book is the author's ability to transcend conventional schools of social movement analysis...It is difficult to see movements in the same light after reading this book."*

## Governing Australia

Studies in Contemporary Rationalities of Government

**Mitchell Dean and**

**Barry Hindess, Editors**

Interdisciplinary in approach, the book combines theoretical discussion with empirical focus. While a wide range of topics is discussed—from sexual harassment in the military to new contractualism—the contributors explore a range of shared concerns, giving the volume focus and rigor.

## Locke: Political Essays

**John Locke**

**Mark Goldie, Editor**

This book brings together a comprehensive collection of the writings of one of the greatest philosophers in the Western tradition. Along with five of John Locke's major essays, seventy shorter essays are included that stand outside the canonical works that Locke published during his lifetime. For the first time students will be able to fully explore the evolution of Locke's ideas concerning the philosophical foundations of morality and sociability, the boundary of church and state, the shaping of constitutions, and the conduct of government and public policy.

## The Political Economy of Dictatorship

**Ronald Wintrobe**

*"The analysis of dictatorship has been a glaring gap in the public choice literature. Ronald Wintrobe's fine book admirably fills this gap."*

— **Dennis C. Mueller, University of Vienna**

This book uses rational choice theory to understand dictators: How do "successful" dictatorships stay in power? What determines the repressiveness of a regime? How do their economies work? The book contains many applications, including chapters on Nazi Germany, Soviet Communism, South Africa under apartheid, and Pinochet's Chile.

## The Eritrean Struggle for Independence

Domination, Resistance, Nationalism, 1941-1993

**Ruth Iyob**

*"This book is an excellent contribution to the extant literature on Africa's newest independent state. It is remarkable in that, although it is written by an Eritrean national, it moves beyond the generally partisan and polemical pieces that tended to characterize discussions of the Eritrean question after the Second World War...this work is must-reading for students of the politics of the Horn of Africa."*

**Symbol and Ritual in the New Spain**

The Transition to Democracy after Franco

**Laura Desfor Edles**

This is a book about the role of culture in social change and the transition to democracy of post-Franco Spain. Since General Franco's death in 1975, Spanish political life has seen an extraordinarily quiescent "period of consensus," unique in its own history. Edles takes a distinctively culturalist approach to this "strategy of consensus" and institutionalization of democracy, and uncovers the processes of symbolization and ritualization that characterize it.

**Liberty Before Liberalism**

**Quentin Skinner**

In this concise yet powerful account, derived from his inaugural lecture as Regius Professor at Cambridge, Skinner seeks to excavate and vindicate the neo-Roman theory of free citizens and free states as it developed in early modern Britain. This analysis leads to a powerful defense of the nature, purposes and goals of intellectual history and the history of ideas.

**The Last Colonies**

**Robert Aldrich and John Connell**

The handover of Hong Kong to China focused attention on the colonies that remain in what is supposed to be a postcolonial world. This paradox lies at the heart of this comprehensive and authoritative book, which provides a broad-based and provocative discussion of decolonization, and interdependence in the modern world, from a unique and original perspective.

**The Republican Legacy in International Thought**

**Nicholas Greenwood Onuf**

The author's discussion of republicanism starts with Aristotle and culminates in the eighteenth century, when international thought became a distinctive enterprise. By analyzing the thought of Vattel and Kant, Onuf identifies a substantial legacy of republicanism in contemporary discussions of sovereignty, intervention, international society, peace, and the global economy.

**Early Modern Liberalism**

**Annabel Patterson**

While the term "liberalism" was not applied to political thought or political parties in England until the late eighteenth century, the author argues that its central ideas were formulated by seventeenth-century English writers in defiance of their society's norms, and then transmitted to the American colonies. Patterson is particularly concerned with those who sought to ensure that the liberal canon would be preserved, dispersed and republished.

### The New Public

Professional Communication and the Means of Social Influence

**Leon H. Mayhew**

Professional specialists have come to dominate public communication, and the modern public of the Enlightenment has been replaced by a "New Public", subject to mass persuasion through systematic advertising, lobbying, and other forms of media manipulation. Leon Mayhew examines this sociological development in terms of discourse and social influence, offering an original theory that bridges Talcott Parsons and Jürgen Habermas.

### Just Institutions Matter

The Moral and Political Logic of the Universal Welfare State

**Bo Rothstein**

In this book Rothstein seeks to defend the universal welfare state against a number of important criticisms that it has faced in recent years. Issues discussed include the relationship between welfare state and civil society, the privatization of social services, and changing values within society. The book is an important contribution both to philosophical and political debates about the future of the welfare state.

### Party vs. State in Post-1949 China

The Institutional Dilemma

**Shiping Zheng**

This book provides the most comprehensive analysis of one of the most important issues in contemporary China: the tensions between the Chinese Communist Party and Chinese state institutions. Taking the "neo-institutionalist" approach, Zheng suggests that the Party faces an institutional dilemma: it cannot live with the state, and it cannot live without the state. It is not only conceptually constructive, but analytically imperative to distinguish the Chinese state from the Communist Party.

## SOMEONE ELSE'S HOUSE

America's Unfinished  
Struggle for Integration

**Tamar Jacoby**

"The best documentation yet of how—after the 60's—a burgeoning black power came into sharp conflict with the very racial idealism that had opened the way for it to emerge. With much journalistic empathy and a novelistic feel for detail, Jacoby takes us through the devolution of the integrationist dream into the aggressive, race-based, urban politics of New York, Detroit, and Atlanta during the 70's, 80's, and 90's. This book is not only a penetrating work of social criticism; it is also the finest history of this period yet written."

## THE UNMAKING OF AMERICANS

How Multiculturalism Has  
Undermined The Assimilation Ethic

**John J. Miller**

"A compact, spirited, and incisive analysis of immigration in contemporary America. John Miller defends the traditional American melting pot ideal against critics on both the right and the left. This book belongs on any short list of the best books on current political and social issues."

—**Stephan Thernstrom**, Harvard University, co-author of *America In Black & White: One Nation, Indivisible*

## THOSE DIRTY ROTTEN TAXES

The Tax Revolts That Built America

**Charles Adams**

"Tom Paine said there were two classes of people, 'those who pay taxes and those who receive and live upon taxes.' The brilliant accomplishment of today's politicians is to confuse too many of us into thinking that we actually benefit from the government programs that we pay so dearly for. In his original, entertaining, and infuriating history, Charles Adams shows us that the only thing more American than politicians and their taxes is citizens and their tax revolts."

## AUTOPSY FOR AN EMPIRE

The Seven Leaders Who  
Built the Soviet Regime

**Dimitri Volkogonov**

"A remarkable and unique insight into the character and history of the seven leaders (Lenin, Stalin, Malenkov, Krushchev, Brezhnev, Gorbachev, Andropov, Chernenko) whose careers spanned the birth and death of the Soviet Union."

—**Kirkus Reviews**

## FOR THE PEOPLE

What the Constitution Really  
Says About Your Rights

**Akhil Reed Amar** and  
**Alan Hirsch**

"Amar, one of our most imaginative constitutional lawyers, eloquently sets out, with Hirsch, a vision of a 'populist' Constitution. Although even the most knowledgeable scholar can profit from the book, the authors write in a style that should be accessible to every citizen in the land. No reader will ever think of the Constitution in quite the same way again, and America will be better for this."

*Constitutional Faith*  
1998 ISBN: 0-684-82694-1 \$26.00

## FOR YOUR OWN GOOD

The Campaign Against  
Smoking and Smokers

**Jacob Sullum**

"Sullum has written a highly readable yet encyclopedic account of anti-tobacco activism from the blast by King James I in 1604 to the latest outpourings by Kessler and Koop, all of which were distinguished by rhetoric more than reason, by an utter lack of concern with the rights of smokers, and by an inability to learn from the past."

## Individual Strategy and Social Structure

An Evolutionary Theory of Institutions

**H. Peyton Young**

Neoclassical economics assumes that people are highly rational and can reason their way through even the most complex economic problems. Peyton Young argues for a more realistic view. His book relies on new results in evolutionary game theory and stochastic dynamical systems theory, many of them originated by the author. It can serve as an introductory text or as a contribution to the study of economic and social institutions.

## Membership and Morals

The Personal Uses of Pluralism in America

**Nancy L. Rosenblum**

In recent years, membership has dropped in traditional voluntary associations. At the same time, concern is rising about the growth of paramilitary and hate groups. Scholars have warned that these trends are undermining civic society. In this provocative book, however, Nancy Rosenblum takes a new, less narrowly political approach to the study of groups. And she reaches more optimistic conclusions about the state of civil society.

Cloth \$29.95 ISBN 0-691-01689-5

## Practices and Principles

Approaches to Ethical and Legal Judgment

**Mark Tunick**

Are there universally valid moral principles that dictate what is right? Or are moral judgments culturally relative, ultimately dictated by conventions and practices that vary among societies? In *Practices and Principles*, Mark Tunick takes up the debate between universalists and relativists, and, in political philosophy, between communitarians and liberals, each of which has roots in an earlier debate between Kant and Hegel.

Cloth \$35.00 ISBN 0-691-01560-0

## Bold Relief

Institutional Politics and the Origins of Modern American Social Policy

**Edwin Amenta**

Edwin Amenta reminds us here that sixty years ago the United States led the world in spending on social provision. By the late 1930s, he shows, the U.S. pledged more of its gross national product to relief programs than did any other major industrial country. He combines history and political theory to account for this surprising fact—and to explain why the country's leading role was short-lived.

## Free in the World

American Slavery and Constitutional Failure

**Mark E. Brandon**

Here Mark Brandon examines the breakdown of American constitutional order in the nineteenth century, paying special attention to slavery as an institution and as a subject of political rhetoric. He argues that the Constitution failed both because it denied to slaves and free blacks the means to participate in political life and because it could not reconcile the increasingly divergent constitutional cultures of North and South.

Cloth \$39.50 ISBN 0-691-01581-3

## Basic Interests

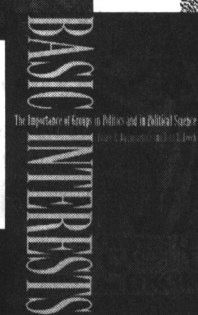

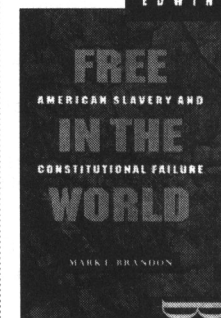

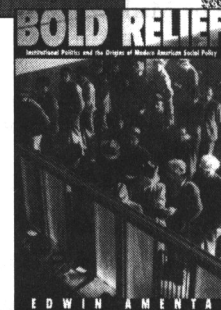

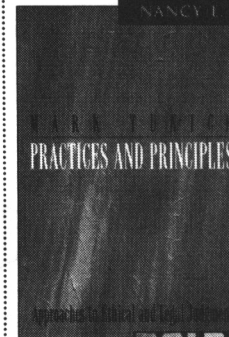

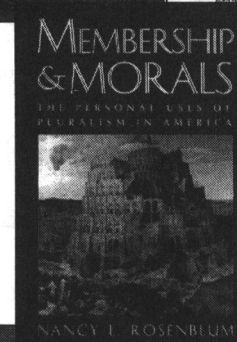

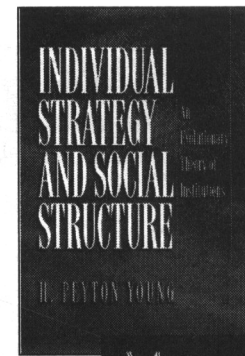

The Importance of Groups in Politics and in Political Science

**Frank R. Baumgartner and Beth L. Leech**

A generation ago, scholars saw interest groups as the single most important element in the American political system. Today, political scientists are more likely to see groups as a marginal influence. Frank Baumgartner and Beth Leech show that scholars have ignored interest groups because of changes in political science. They argue that researchers need to develop a more coherent set of research questions and pay more attention to the context of group behavior.

### Getting Away with Murder

How Politics Is Destroying the Criminal Justice System

SUSAN ESTRICH

This book is a devastating critique of how politics has corrupted criminal law in America. Susan Estrich takes on the enflamed issues, from the O. J. Simpson trial to the three strikes legislation, but pushes well beyond the soundbite answers. Drawing on her background as a lawyer, political commentator, professor, and national campaign manager for Michael Dukakis, she brings academic expertise and political experience together and argues that group-based jury nullification, like group-based abuse excuses, is precisely the wrong answer to the biases of the criminal justice system.

### Shifting the Color Line

Race and the American Welfare State

ROBERT C. LIEBERMAN

WINNER OF THE THOMAS J. WILSON PRIZE OF HARVARD UNIVERSITY PRESS

This book explores the historical and political roots of racial conflict in American welfare policy, beginning with the New Deal. Robert Lieberman demonstrates how racial distinctions were built into the very structure of the American welfare state. By keeping poor blacks at arm's length while embracing white workers, national welfare policy helped to construct the contemporary political divisions—middle-class versus poor, suburb versus city, and white versus black—that define the urban underclass.

### Liberalism and Its Discontents

ALAN BRINKLEY

In this history of liberalism since the 1930s, Alan Brinkley offers an eloquent account of postwar liberalism, where it came from, where it has gone, and why. He goes beyond an examination of the internal weaknesses of liberalism and the broad social and economic forces it faced to consider the role of alternative political traditions in liberalism's downfall. Moving from a penetrating interpretation of Franklin D. Roosevelt and the New Deal to an analysis of the profound and frequently corrosive economic, social, and cultural changes that have undermined the liberal tradition *Liberalism and Its Discontents* is both political history and a critique of that history.

384 pp. • \$27.95 cloth

### The Social Democratic Moment

Ideas and Politics in the Making of Interwar Europe

SHERI BERMAN

This book cuts against the grain of most current theorizing in political science by explicitly discussing when and how ideas influence political behavior. Even though German and Swedish Social Democrats belonged to the same transnational political movement and faced similar political and social conditions in their respective countries before and after World War I, they responded very differently to the challenges of democratization and to the Great Depression—with crucial consequences for the fates of their countries and the world at large. It will be of interest to anyone concerned with twentieth-century European history, the transition to democracy problem, or the role of ideas in politics.

### We the People

Volume 2: Transformations

BRUCE ACKERMAN

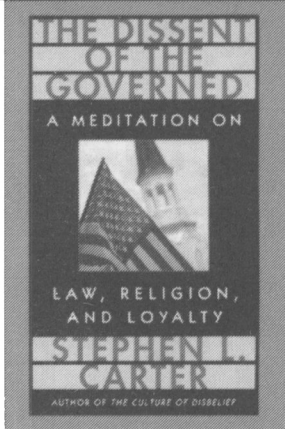

Constitutional change, seemingly so orderly, has in fact always been a revolutionary process, as Bruce Ackerman makes clear in *We the People: Transformations*. After the Civil War, Abraham Lincoln and the Republican Party revolutionized the traditional system of constitutional amendment as they put principles of liberty and equality into higher law. Another wrenching transformation occurred during the Great Depression, when Franklin Roosevelt and his New Dealers vindicated a new vision of activist government against an assault by the Supreme Court. These are the crucial episodes in American constitutional history that Ackerman takes up in this second volume of the trilogy.

"This is a superb, provocative, and often gripping account of how *We the People* mobilize to produce constitutional change. A wonderful blend of history, political science, and constitutional law, this volume attempts to vindicate Ackerman's striking claim that the Civil War and the New Deal inaugurated large-scale constitutional transformations."

### **The Dissent of the Governed**

A Meditation on Law, Religion, and Loyalty

**STEPHEN L. CARTER**

In an impassioned defense of dissent, Stephen L. Carter portrays an America dying from a refusal to engage in dialogue, a polity where everybody speaks, but nobody listens. *The Dissent of the Governed* is an eloquent diagnosis of what ails the body politic—the unwillingness of people in power to hear disagreement unless forced to—and a prescription for a new process of response.

### **Beneath the United States**

A History of U.S. Policy toward Latin America

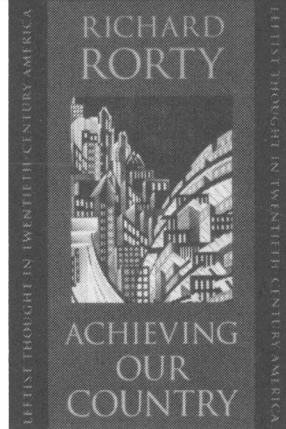

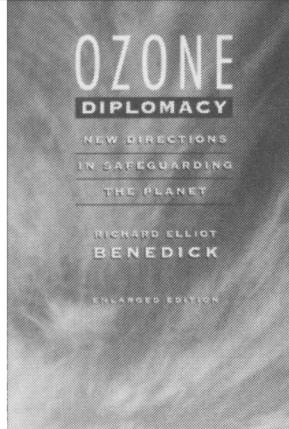

**LARS SCHULTZ**

In this sweeping history of United States policy toward Latin America, Lars Schultz shows that the United States has always perceived Latin America as a fundamentally inferior neighbor, unable to manage its affairs and stubbornly underdeveloped. Schultz demonstrates that not until the United States perceives its southern neighbors as equals can it anticipate a constructive hemispheric alliance.

"A splendid and important book—exhaustively researched, cogently and eloquently written, at once passionate and thoughtful...Schultz's approach works both as intellectual history and as diplomatic history."

### **Achieving Our Country**

Leftist Thought in Twentieth-Century America

**RICHARD RORTY**

How have national pride and American patriotism come to seem an endorsement of atrocities—from slavery to the slaughter of Native Americans, from the rape of ancient forests to the Vietnam War? *Achieving Our Country* traces the sources of this debilitating mentality of shame in the Left, as well as the harm it does to its proponents and to the country. This galvanizing book, adapted from Rorty's Massey Lectures of 1997, takes the first step toward redressing the imbalance in American cultural life by rallying those on the Left to the civic engagement and inspiration needed for "achieving our country."

### **Letters to Kennedy**

John Kenneth Galbraith

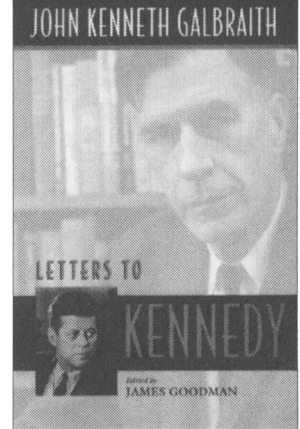

**EDITED BY JAMES GOODMAN**

A unique document in the history of the Kennedy years, these letters give us a firsthand look at the working relationship between a president and one of his close advisers, John Kenneth Galbraith. Ranging from a pithy commentary on Kennedy's speech accepting the 1960 Democratic presidential nomination to reflections on critical matters of state such as the Cuban missile crisis and the threat of Communism in Indochina, *Letters to Kennedy* presents a rare, intimate picture of the lives and minds of a political intellectual and an intellectual politician during a particularly rich moment in American history.

"A most unusual combination: substantive historical documentation on India, on Vietnam, and on the conduct of foreign and economic policy, joined with inside political gossip in the context of a fascinating friendship between two notable figures, all told in witty and engaging letters...I don't suppose there has been anything quite like the Galbraith-Kennedy relationship since Voltaire and Frederick the Great."

### **The Decent Society**

**AVISHAI MARGALIT**

TRANSLATED BY NAOMI GOLDBLUM

How to be decent, how to build a decent society, emerges out of Margalit's analysis of the corrosive functioning of humiliation in its many forms. This is a deeply felt book that springs from Margalit's experience at the borderlands of conflicts between Eastern Europeans and Westerners, between Palestinians and Israelis.

"At a time when the idea of decency appears in politics only in the mouths of politicians eager to keep sex off the Internet, it is a pleasure to come across an intelligent discussion of a much more serious subject, one that has had little attention from philosophers—how to build a society that doesn't humiliate its weaker members."

### **The Irony of Free Speech**

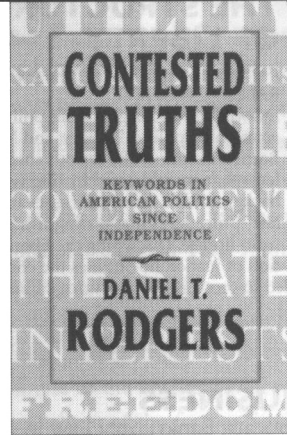

**OWEN M. FISS**

How free is the speech of someone who can't be heard? Not very—and this, Owen Fiss suggests in this incisive book, is where the First Amendment comes in. He reframes the debate by showing how restrictions on political expenditures, hate speech, and pornography can be defended in terms of the First Amendment, not despite it. He reminds us that the state can be the friend of freedom, protecting and fostering speech that might otherwise die unheard, depriving our democracy of the full range and richness of its expression.

"In the tradition of communitarian free speech theorists from William Brennan to Robert Bork, Fiss argues that the [First] amendment was intended 'to broaden the terms of public discussion,' rather than to protect individual self-expression... [He] powerfully reminds us... that the flowering of individual autonomy also has costs—atomism, social fragmentation and a public discourse that grows more inclusive and less intelligible at the same time."

### **Contested Truths**

Keywords in American Politics Since Independence

**DANIEL T. RODGERS**

Contention, argument, and power have always been the tradition in American political talk. But the language of argument uses particular words with particular, sometimes shifting, meanings and to know what they are and what they meant over time is a critical contribution to political history. It is true that politicians may act as though they are part of no particular ideological tradition, but history shows that, more often than not, they use an understood meaning to enhance their actions. As Daniel Rodgers shows in this book, rhetoric has consequences.

**ROBERT A. PACKENHAM**

In the first comprehensive scholarly treatment of dependency theory, Robert Packenham describes its origins, substantive claims, and methods. He analyzes the movement comparatively and sociologically as a significant episode in inter-American and North-South cultural relations. In his account, the positive intellectual contributions of dependency ideas, as well as their role in the costly politicization of U.S. scholarship, become evident and comprehensible.

Justice and the Rule of Law

RANDY E. BARNETT

Drawing upon insights from philosophy, economics, political theory, and law, Randy Barnett examines the serious social problems that are addressed by liberty—and the background or “natural” rights and “rule of law” procedures that distinguish liberty from license. Discussing the liberal conception of justice, he outlines the constitution-

al framework that is needed to protect this structure of liberty.

The Making of Corporate Bankruptcy Law in England and the United States

BRUCE G. CARRUTHERS and TERENCE C. HALLIDAY

This book compares key English and American insolvency laws to identify those underlying political forces that established corporate bankruptcy law on both sides of the Atlantic. Also, it shows how and why corporate insolvency regulation is the creation of the lawyers who interpret and administer it. This book will be welcomed as an important sociological study, for it advances our understanding of how substantive law results from conflicts among the professionals who help to make it.

**LAWYERS AND THE RISE OF WESTERN POLITICAL LIBERALISM**

Europe and North America from the Eighteenth to Twentieth Centuries

Edited by TERENCE C. HALLIDAY and LUCIEN KARPIK

This new volume originated in a collective project aimed at developing an alternative theoretical approach to the market monopoly theory that currently dominates studies of the legal professions. In contrast to theories linking the rise of professionalism to the development of economic liberalism, this book advances a political theory of lawyers’ collective action. The contributors focus on areas where the engagement of lawyers has shaped the core of liberal politics.

**FACES OF INEQUALITY**

Social Diversity in American Politics

RODNEY E. HERO

The distinctive thesis of *Faces of Inequality* is that a state’s racial and ethnic composition, as much as any other factor, shapes its political processes and policies. To understand state politics, therefore, we must consider them from the perspective of social diversity. Scholars have broadly acknowledged that racial and ethnic diversity are central to American history, but Rodney E. Hero is the first to posit and systematically examine this diversity as essential to our understanding of contemporary American politics.

## Hegel's Idea of a Phenomenology of Spirit

**Michael N. Forster**

"There are, Hume said, shallow thinkers, who fall short of the truth, and abstruse thinkers, who go beyond it. In this magnificent work, with immense erudition and luminous clarity, Forster unravels the intricacies of the most abstruse of thinkers, without ever reducing him to a shallow thinker."—Michael J. Inwood, author of *Hegel*

## Pragmatism and Political Theory

*From Dewey to Rorty*

**Matthew Festenstein**

"Matthew Festenstein has produced a very important work in the history of pragmatic thought. His interpretations of the central texts and his critical analyses of them provide pragmatists with fresh new arguments about realism, relativism, and the possibilities of democracy. The book should be of considerable interest not only to pragmatists but to moral and political philosophers more generally."—Marion Smiley, author of *Moral Responsibility and the Boundaries of Community*

## Parting at the Crossroads

The Emergence of Health Insurance in the United States and Canada

**Antonia Maioni**

Antonia Maioni asks: Why did the United States and Canada, alike in so many ways, part "at the crossroads" to produce such different systems of health insurance? She answers this previously neglected question so interestingly that her book will hold the attention of anyone concerned with health care in either country.

Cloth \$37.50 ISBN 0-691-05796-6 Due July

## Changing Course

Ideas, Politics, and the Soviet Withdrawal from Afghanistan

**Sarah E. Mendelson**

Soviet foreign policy changed dramatically in the 1980s. Here Sarah Mendelson demonstrates that interpretations that stress the impact of the international system, or that focus on the role of ideas or politics alone, fail to explain the contingent process of change. She draws on firsthand interviews and on recently declassified material from Soviet archives to show that both ideas *and* political strategies were needed to make reform happen.

## The Origins of Liberty

Political and Economic Liberalization in the Modern World

**Edited by Paul W. Drake and Mathew D. McCubbins**

Why would sovereigns ever grant political or economic liberty to their subjects? Under what conditions would rational rulers who possess ultimate authority ever give up any of that authority? This book draws on a wide array of empirical and theoretical approaches to answer these questions, investigating both *why* sovereign powers might liberalize and *when*.

## Channeling Violence

The Economic Market for Violent Television Programming

**James T. Hamilton**

Violence on television is used as a product to attract both viewers and sponsors. In this book, James Hamilton presents the first major theoretical and empirical examination of the market for television violence. Here he approaches television violence in the same way that other economists approach the problem of pollution: that is, as an example of market failure.

## The Cultural Politics of Fur

JULIA V. EMBERLEY

Fur has been sparking controversies ever since sumptuary laws marked it as a luxury item and as a sign of medieval class privilege. Drawing on wide-ranging historical and contemporary sources, Julia V. Emberley explains how a material good has become both a symbol of wealth and sexuality, and a symptom of class, gender, and imperial antagonisms.

"A valuable book on a little-explored subject."—*Library Journal*. 41 illus. \$42.50 cloth, \$17.95 paper

## Activists Beyond Borders

*Advocacy Networks in International Politics*

## Negotiating the New Germany

*Can Social Partnership Survive?*

EDITED BY  
LOWELL TURNER

The reunification of Germany in 1990 juxtaposed two very different models of industrial relations: West Germany with a largely collaborative relationship between business and labor, codified in law, and East Germany with a long-standing, authoritarian system. Would western-style social partnership spread to all of Germany, or would it find itself seriously destabilized? This volume assesses both models and the results of this union. ## CORNELL STUDIES IN POLITICAL ECONOMY

a series edited by Peter J. Katzenstein

## Disparaged Success

*Labor Politics in Postwar Japan*

IKUO KUME

Most observers assume that decentralized labor is destined to lose power in a capitalist economy, and that enterprise unions will be docile and powerless. Ikuo Kume documents the one notable exception: the Japanese trade union confederation has steadily grown in importance, expanding its scope beyond individual companies to national policy making. 24 tables, 24 graphs \$42.50 cloth, \$16.95 paper

## The Currency of Ideas

*Monetary Politics in the European Union*

KATHLEEN R. MCNAMARA

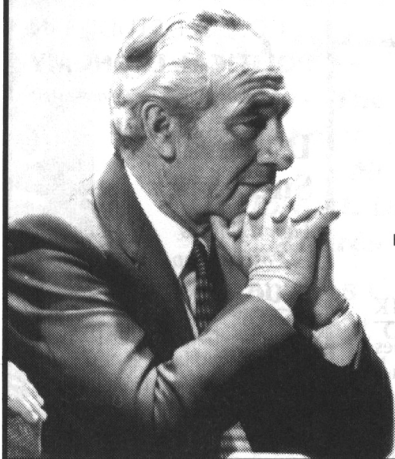

Why have the states of Europe agreed to create an Economic and Monetary Union (EMU) and a single European currency? What will decide the fate of this bold project? This book explains why monetary integration has deepened in Europe from the Bretton Woods era to the present day. 9 tables, 7 charts/graphs \$29.95

## The Myth of the Powerless State

LINDA WEISS

Conventional wisdom argues that the integration of the world economy is making national governments less powerful, but Linda Weiss disagrees. In an era when global society and the transnational market are trendy concepts, she suggests that state capacities for domestic transformative strategies provide a competitive advantage. \$45.00 cloth, \$17.95 paper

## For the Future of Israel

### SHIMON PERES AND ROBERT LITTELL

"As Shimon Peres talks candidly about his life and of the parallel history of Israel, a memorable portrait emerges of a man of great integrity, courage and humanity. His account of the events and personalities that have shaped Israel and its search for peace with security is wise and often poetic. *For the Future of Israel* is both fascinating reading and a valuable historical document."—Henry A. Kissinger

## At the End of the American Century

America's Role in the Post-Cold War World

EDITED BY  
ROBERT L. HUTCHINGS

A distinguished group of authorities—Thomas S. Foley, Jonathan Clarke, H.W. Brands, John Lewis Gaddis, Joseph Duffey, Robert Kaplan, James Rosenau, Bryan Hehir, Bowman Cutter, Michael Oppenheimer, Alfred Eckes, Samuel Berger, Ronald Steel, Milton Morris, Timothy Wirth, and Carol Moseley-Braun—reviews questions of morality, interest, politics, and economics in U.S. foreign policy after the collapse of the Soviet empire.

## Chimpanzee Politics

Power and Sex among Apes  
*revised edition*

FRANS DE WAAL

"Even more enlightening than Machiavelli's *The Prince*, this book describes power takeovers and social organizations in a chimpanzee colony . . . I'll never look at academic or corporate politics the same way."—Jim Collins, *Inc. Magazine*

"Newt Gingrich has been a avid follower of de Waal's work for years. He has even placed de Waal's *Chimpanzee Politics* on his recommended reading list."—Elizabeth Lesly, *Business Week*

## Sultanistic Regimes

EDITED BY H. E. CHEHABI AND JUAN J. LINZ

Among the world's most extreme governments have always been those based not on ideology, or a leader's personal mission, or even charisma, but simply on raw power sustained by fear of punishment and hope of reward—Cuba under Batista, Pahlavi's Iran, the Philippines under Marcos, the Trujillo regime in the Dominican Republic, and Haiti under the Duvaliers.

\$16.95 paperback

## Democratic Politics in Latin America and the Caribbean

JORGE I. DOMÍNGUEZ

Dominguez, a long-time scholar of the region, focuses on the successful accomplishments of democratic politics. He moves from the 1960s, when Caribbean nations first earned their independence, to the present, incorporating both British and U.S. influence in the region and the development of parties, civil institutions, and competitive markets.

\$16.95 paperback

## New Global Partnerships

Defining the Burdens and Sharing the Costs

DAVID F. GORDON

David F. Gordon argues that in the new global context, it is no longer possible to segregate international burden-sharing discussions by issue area—such as security, economic problems, and the "new global issues" of the environment and drug and crime syndicates.

Overseas Development Council

\$13.95 paperback

## Cultures of Antimilitarism

National Security in Germany and Japan

THOMAS U. BERGER

Neither Germany nor Japan seeks to regain its former military power; on the contrary, antimilitarism has become so deeply rooted that even such questions as participation in international peacekeeping forces are met with widespread domestic opposition. Berger analyzes the forces that brought about this transformation.

## Democracy in East Asia

EDITED BY LARRY DIAMOND AND MARC F. PLATTNER

Though some of its most successful countries are democratic, East Asia is also home to nondemocratic regimes that can claim enviable records of both political stability and economic growth, launching a debate about whether "Asian values" conducive to growth and stability may be incompatible with Western-style liberal democracy.

## **A Culture of Secrecy**

The Government Versus the People's Right to Know  
Edited by Athan G. Theoharis

"This is the best file ever assembled about our government's unconscionable attempts to keep its secrets from the people." ~ Victor Navasky, publisher and editorial director of *The Nation*. "Brings into sharp focus the current bureaucratic wars pitting the public's right to know against government spinmasters who hide and warp the truth by overclassifying documents." ~ Seymour M. Hersh, author of *The Dark Side of Camelot*.

## **Nixon's Economy**

Booms, Busts, Dollars, and Votes  
Allen J. Matusow

"A fascinating book. Matusow's portraits of major players such as Herbert Stein, John Connally, and George Shultz are extraordinarily shrewd. The result is a history of presidential mismanagement that reveals a great deal, not only about the Nixon years, but also about the formidable obstacles that block the making of well-informed and coherent federal economic policy." ~ JAMES T. PATTERSON, author of *Grand Expectations: The United States, 1945–1974*.

## **The President as Statesman**

Woodrow Wilson and the Constitution

Daniel D. Stid

"Stid shows convincingly how Wilson both attacked and adapted the American system of separation of powers. An original, intelligent book." ~ Harvey C. Mansfield, author of *Taming the Prince*. "This book helps us think intelligently about the most pressing political challenges the country faces at the twilight of another century." ~ Sidney M. Milkis, author of *The President and the Parties*. "A book of genuine distinction. The most faithful rendering we have of the ambivalence, contradictions, and above all moderation of Wilson's conception of political leadership." ~ Richard J. Ellis, author of *Presidential Lightning Rods*.

240 pages. \$35.00

## **The Presidency of Calvin Coolidge**

Robert H. Ferrell

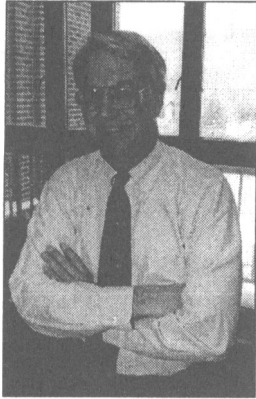

"Ferrell, one of America's most deservedly acclaimed presidential historians, continues his work on the 1920s with a portrait of Coolidge that manages to be both sympathetic and uncompromising. A deeply researched and elegantly written appraisal." ~ Richard Norton Smith, author of *An Uncommon Man*. "A welcome addition to a distinguished series and a delight to read." ~ Ellis W. Hawley, author of *The New Deal and the Problem of Monopoly*.

### **Law Stories**

"... Bellow and Minow have collected from legal practitioners nine stories designed to provoke interrogation of commonplace and taken-for-granted assumptions about legal practice, including the lives of impoverished clients, the prerogatives of wealth, and the marriage of law and power. . . . Without specifically announcing a systematic political program, the editors nonetheless invite the reader to take a closer look at the ways in which law contributes to subordination and to inequality."

Faculty**

**T**he sixth revised edition of the **Directory** identifies political science departments and faculty at colleges in the United States whose highest degree is the bachelor of arts. Each faculty member is listed with rank, highest degree, fields of specialization, and e-mail address.

The **Directory** is a companion to APSA's **Graduate Faculty and Programs in Political Science**. **Graduate Faculty** lists departments and the faculty who teach undergraduate and graduate students at universities conferring a B.A. and an M.A. or both M.A. and Ph. D. in political science. It provides information on entrance requirements, tuition, and financial aid, as well as brief program descriptions.

Both books are important references for advising students and locating political scientists for professional activities.

# The Latest Comprehensive Reference to Political Science Graduate Programs and Faculty

The new edition of **Graduate Faculty and Programs in Political Science 1998-2000**, the APSA's valuable resource for students, faculty and college counselors, is available in Spring 1998.

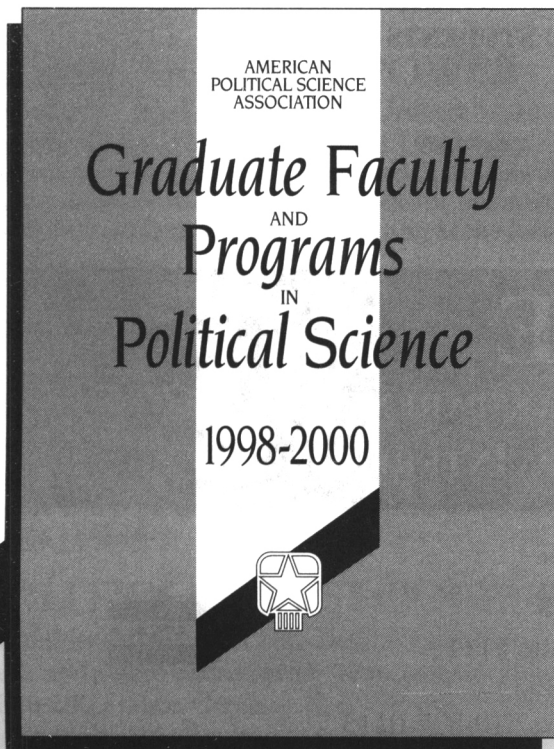

Over 400 programs are described in the directory. Graduate Programs in Britain are included for the first time along with the comprehensive listing of programs in the United States and Canada.

The entries for Ph.D. and Masters programs in political science and the associated fields of public administration, public policy and international affairs include information about the type of degree(s) awarded, tuition charges, financial aid and admission and degree requirements. Faculty for the program are listed with their major fields of specialization, degrees, telephone numbers and e-mail addresses.

The directory also has an appendix with data on the number of students in each program, the ratio of student applications to admissions and the numbers of degrees awarded along with affirmative action information. Use of the directory is facilitated by an alphabetical index of faculty and a geographical index of institutions.

Departments that are members of the Departmental Services Program may submit purchase orders.

In September 1996, every member of Congress was given a manuscript version of "Operation Prosperity." Two prominent Senators replied with:

*"You make many important observations regarding the Federal Budget, entitlement spending, tax reform, and other governmental reforms.*

*I will be certain to keep your ideas and suggestions in mind as any relevant legislation comes before the Senate for a Congressional vote."*

—California Senator  
Dianne Feinstein (Democrat)

*"I appreciated the opportunity to read your ideas on how to make America a better place.*

*I agree with you about the seriousness of the budget deficit.*

*I will keep your ideas in mind as Congress acts on these matters."*

—Utah Senator  
Orrin G. Hatch (Republican)
