

Nutrition Research Reviews, published annually by Cambridge University Press, presents authoritative and critical reviews of research that advance new concepts and encourage fresh thinking on a variety of nutritional problems. The journal's main objective is to encourage the exchange of fundamental ideas on nutritional well-being. The subscription (excluding VAT) to volume 8, 1995, is £49 including postage (US \$89 in USA, Canada and Mexico).

The Proceedings of the Nutrition Society, published by Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The meetings also include sessions at which papers are communicated by members and others on original work. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription (excluding VAT) to the *Proceedings* is £126.00 (US \$240.00 in USA, Canada and Mexico). Single issues are £44.00 (US \$85.00 in the USA, Canada and Mexico) each; postage extra.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$11.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/95 \$11.00+.10. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

CONTENTS

Editorial

Writing in teams. *D. A. T. Southgate* 287-288

Fermentability of dietary fibre

Determination of digestible energy values and fermentabilities of dietary fibre supplements: a European interlaboratory study *in vivo*. *G. Livesey, T. Smith, B. O. Eggum, I. H. Tetens, M. Nyman, M. Roberfroid, N. Delzenne, T. F. Schweizer & J. Decombaz* 289-302

Estimation of the fermentability of dietary fibre *in vitro*: a European interlaboratory study. *J.-L. Barry, C. Hoebler, G. T. MacFarlane, S. MacFarlane, J. C. Mathers, K. A. Reed, P. B. Mortensen, I. Nordgaard, I. R. Rowland & C. J. Rumney* 303-322

Validation of a food-frequency questionnaire

Biochemical validation of a self-administered semi-quantitative food-frequency questionnaire. *M. Porrini, M. G. Gentile & F. Fidanza* 323-333

Feed intake in Granadina goat kids

Dietary factors affecting the maximum feed intake and the body composition of pre-ruminant kid goats of the Granadina breed. *M. R. Sanz Sampelayo, L. Allegretti, I. Ruiz Mariscal, F. Gil Extremera & J. Boza* 335-345

Digestion of ammoniated wheat straw

Intake, digestion and small intestinal protein availability in sheep in relation to ammoniation of wheat straw with or without protein supplementation. *S. J. Oosting, J. van Bruchem & X. B. Chen* 347-368

Lipid peroxidation and eicosanoid production in pigs

Lipid peroxidation, prostacyclin and thromboxane A_2 in pigs depleted of vitamin E and selenium and supplemented with linseed oil. *Maeve R. Nolan, Seamus Kennedy, W. John Blanchflower & D. Glenn Kennedy* 369-380

Fatty acid intake and hepatic lipogenesis

Effects of dietary fatty acid composition on basal and hormone-stimulated hepatic lipogenesis and on circulating lipids in the rat. *Antonios Zampelas, Linda M. Morgan, Nigel Furlonger & Christine M. Williams* 381-392

Haricot bean addition to a white bread diet

Digestive adaptations of rats given white bread and cooked haricot beans (*Phaseolus vulgaris*): large-bowel fermentation and digestion of complex carbohydrates. *Fiona B. Key & J. C. Mathers* 393-406

Phosphorus metabolism in chicks

Absorption and endogenous excretion of phosphorus in growing broiler chicks, as influenced by calcium and phosphorus ratios in feed. *M. R. Al-Masri* 407-415
