

*Two Hundred and Eighty-ninth Scientific Meeting
One Hundred and Fifteenth Scottish Meeting
Ninewells Hospital and Medical School, Dundee
7 FEBRUARY 1976*

Effects of various salts of lignosulphonate on the colon of guinea-pigs. By J. WATT and S. N. MARCUS	76A
Sex differences in the fatty acid composition of total carcass lipids of obese and lean Zucker rats. By K. W. J. WAHLE and J. D. RADCLIFFE	77A
The effect of bran on the excretion of faecal cations. By M. A. EASTWOOD, W. D. MITCHELL and J. L. PRITCHARD	78A
A study of infant feeding practices in Edinburgh. By T. R. KIRK	79A
Advice received by ninety-four mothers on infant feeding in Edinburgh. By T. R. KIRK	80A
The effect of variations in dietary protein levels on the collagen of rat skin. By R. DAWSON and G. MILNE	81A
Arsanilic acid and its relationship to selenium and vitamin E in the nutrition of the pig. By S. J. PARKER and H. F. WALKER	83A
Nutritional effect of field bean (<i>Vicia faba</i> L.) protease inhibitors and field beans fed to rats. By B. W. ABBEY, R. J. NEALE and G. NORTON	84A
Copper and zinc deposition in the foetal lamb. By R. B. WILLIAMS and I. BREMNER	86A
Determination of available lysine in barley using <i>Tetrahymena pyriformis</i> . By A. E. EL-SHERBINY, S. R. DRAPER and J. H. TOPPS	88A
Fatty acid composition of triglycerides of goats fed on a barley-rich diet. By W. R. H. DUNCAN, E. R. ØRSKOV and G. A. GARTON	89A
Urinary excretion of methylmalonic and ethylmalonic acids by sheep fed on a barley-rich diet. By A. K. LOUGH and A. G. CALDER	90A
Utilization of fish-protein hydrolysate for artificial rearing of lambs. By H. S. SOLIMAN and E. R. ØRSKOV	91A

*Two Hundred and Ninety-first Scientific Meeting
One Hundred and Seventeenth Scottish Meeting
Heriot-Watt University, Edinburgh
25 and 26 MARCH 1976*

Acetyl groups in dietary polysaccharides. By J. S. D. BACON, A. H. GORDON and A. J. HAY	93A
Digestion of acetyl groups and cell-wall polysaccharides of grasses in the rumen. By E. JANE MORRIS and J. S. D. BACON	94A
The effect of the condensed tannins of sainfoin (<i>Onobrychis viciifolia</i>) on the release of soluble leaf protein into the food bolus of cattle. By J. L. MANGAN, R. L. VETTER, D. J. JORDAN and P. C. WRIGHT	95A
The energy value for sheep of three successive harvests of lucerne when artificially dried and fed in the chopped and pelleted forms. By J. S. SMITH, F. W. WAINMAN and P. J. S. DEWEY	97A
The intake, digestibility and retention time of roughage diets by red deer (<i>Cervus elaphus</i>) and sheep. By R. N. B. KAY and E. D. GOODALL	98A
Measurements over 5 d of the flow of dry matter and of chromic oxide at the duodenum of cattle. By J. D. SUTTON, F. G. YOUSSEF and J. D. OLDHAM	100A
Effect of dietary proportions of roughage and concentrate on rate of digestion of dried grass and cellulose in the rumen of sheep. By A. M. CHIMWANO, E. R. ØRSKOV and C. S. STEWART	101A
The effect of processing before wafering on the nutritive value of first and second harvest artificially dried grass from the same sward. By F. W. WAINMAN and J. S. SMITH	102A
Carbon metabolism in sheep fed on poor-quality hill herbage. By J. C. MACRAE, S. WILSON and J. A. MILNE	103A
Intestinal digestion of tropical starches by the preruminant calf. By B. E. ASSAN and P. THIVEND	104A
The value of processing barley in a mixed diet offered to cattle. By A. PAVLIČEVIĆ, M. KAY and N. A. MACLEOD	105A
A protein allowance for lactating beef cows. By S. A. ZAHRA, J. H. TOPPS and T. B. MILLER	106A
Measurement of flow of intestinal contents in sheep by an electromagnetic method. By C. PONCET, ELENA DIMOVA, C. DARDILLAT and P. THIVEND	107A
The effect of frequency of feeding and of the dietary energy source upon microbial protein synthesis in the rumen of sheep. By A. AL ATTAR, R. A. EVANS and R. F. E. AXFORD	108A
Absorption and recycling of nitrogenous compounds in the digestive tract of sheep. By J. V. NOLAN and J. C. MACRAE	110A
The effect of time upon responses to intraperitoneal injections of DL-methionine in sheep fed on silage diets. By T. N. BARRY and R. J. WILKINS	111A
The effect of fasting in the non-lactating cow on hepatic lipid content and ultrastructure. By I. M. REID, R. A. COLLINS and G. D. BAIRD	112A
Antiketogenic effect of glucose in fasted, lactating cows. By G. D. BAIRD and R. J. TREACHER	113A

Proceedings of the Nutrition Society

CONTENTS OF VOL. 35, No. 2, SEPTEMBER 1976

SYMPOSIUM PROCEEDINGS

*Two Hundred and Eighty-eighth Scientific Meeting
Queen Elizabeth College, London
5 DECEMBER 1975*

SEX DIFFERENCES IN RESPONSE TO NUTRITIONAL VARIABLES

Chairman: PROFESSOR A. S. TRUSWELL, Department of Nutrition, Queen Elizabeth College, London

	PAGE
Sex differences in energy intake and expenditure. By J. V. G. A. DURNIN	145
Sex differences in response to dietary carbohydrates. By I. MACDONALD	155

Chairman: PROFESSOR I. MACDONALD, Department of Physiology, Guy's Hospital Medical School, London

Sex differences in iron absorption. By A. JACOBS	159
Calcium, phosphorus and magnesium requirements. By D. H. MARSHALL, B. E. C. NORDIN and R. SPEED	163

Chairman: PROFESSOR A. S. TRUSWELL, Department of Nutrition, Queen Elizabeth College, London

The response of the sexes to nutritional stress. By ELSIE M. WIDDOWSON	175
Food preferences of males and females. By A. E. BENDER	181

*Two Hundred and Ninetieth Scientific Meeting
One Hundred and Sixteenth Scottish Meeting
Heriot-Watt University, Edinburgh
25 and 26 MARCH 1976*

EFFECTS OF FOOD PROCESSING ON NUTRITION OF FARM ANIMALS

Chairman: DR J. F. D. GREENHALGH, Rowett Research Institute, Bucksburn, Aberdeen

The influence of physical processing on the intake, digestion and utilization of dried herbage. By D. F. OSBOURN, D. E. BEEVER and D. J. THOMSON	191
The influence of conservation methods on digestion and utilization of forages by ruminants. By P. McDONALD and R. A. EDWARDS	201
The utilization of the products of green-crop fractionation by pigs and ruminants. By R. A. HOUSEMAN	213
The effectiveness of formaldehyde treatment in protecting dietary protein from rumen microbial degradation. By T. N. BARRY	221

Chairman: PROFESSOR F. W. H. ELSLEY, The Edinburgh School of Agriculture, West Mains Road, Edinburgh

The effect of pretreatment on the nutritive value of diets for poultry. By B. J. WILSON and J. M. MCNAB	231
Some effects of processing on the nutritive value of feedstuffs for growing pigs. By T. L. J. LAWRENCE	237
The effect of processing on digestion and utilization of cereals by ruminants. By E. R. ØRSKOV	245

ABSTRACTS OF COMMUNICATIONS

*Two Hundred and Eighty-seventh Scientific Meeting
Guy's Hospital Medical School, London
4 DECEMBER 1975*

Postnatal protein malnutrition: a major reduction in brain-cell size or cell number? By F. M. CREMIN	51A
Origin of amino acids in rumen bacteria. Studies using ¹⁵ N urea. By K. DANESHVAR, D. N. SALTER and R. H. SMITH	52A
Turnover of bacterial nucleic acids in the rumen. By R. C. SMITH and R. H. SMITH	53A
Platelet aggregation in rats made hyperuricaemic with nucleic acid-rich diets containing oxonate, an inhibitor of uricase. By P. D. WINOCOUR, K. A. MUNDAY, T. G. TAYLOR and M. R. TURNER	54A
The effects of 1 α -hydroxycholecalciferol on the calcium and phosphorus metabolism of dairy heifers. By B. F. SANSOM, M. J. VAGG and W. M. ALLEN	55A
The influence of dietary sodium and fibre on mineral absorption in the small and large intestines of growing pigs. By I. G. PARTRIDGE	56A
Ascorbic acid concentrations in human plasma and cerebrospinal fluid. By B. D. RIDGE, E. FAIRHURST, D. CHADWICK and E. H. REYNOLDS	57A
A futile energy cycle in adult rats given a low-protein diet at high levels of energy intake? By K. J. MCCracken and R. GRAY	59A
The influence of plane of nutrition and environmental temperature on heat loss and energy retention in the pig. By W. H. CLOSE and L. E. MOUNT	60A
The effect of sodium chloride and sodium bicarbonate on food intake, growth rate and acid-base balance in calves. By R. C. KELLAWAY, D. J. THOMSON and D. E. BEEVER	61A
Success and failure of breast-feeding in relation to energy intake. By MARGARET J. WHICHELOW	62A
Long-chain polyunsaturated fatty acids in the erythrocyte lipids of breast-fed and bottle-fed infants. By T. A. B. SANDERS and D. J. NAISMITH	63A
The linoleic acid requirement of the human infant. By D. J. NAISMITH, SUSAN P. DEEPROSE and M. C. F. MA	65A
The abnormal metabolism of essential fatty acids in the cat. By J. P. W. RIVERS, A. J. SINCLAIR, D. P. MOORE and M. A. CRAWFORD	66A
The absence of $\Delta 6$ -desaturase activity in the cat. By J. P. W. RIVERS, A. G. HASSAM and CATHERINE ALDERSON	67A
Changes in plasma lipids of man after substituting glucose-syrup solids for table sucrose. By R. BAGLEY, M. FORD and L. F. GREEN	68A
Some immediate metabolic responses in man to fructose ingestion. By I. MACDONALD and DEBORAH PACY	69A
Some effects, in baboons, of chronic glycerol ingestion. By I. MACDONALD and ANNE KEYSER	70A
Cholesterol-lowering effect of lignin in rats. By P. A. JUDD, R. M. KAY and A. S. TRUSWELL	71A
A prospective study of modified-fat and low-carbohydrate dietary advice in the treatment of maturity-onset diabetes. By J. I. MANN, T. D. R. HOCKADAY, J. M. HOCKADAY and R. C. TURNER	72A
Nutritional knowledge and food habits of families with children attending a state nursery school in Sheffield. By JANE WALSH and R. C. OSNER	73A
Food intake and anthropometric data on children under 4 years old living in the south of England. By JANE MORGAN, PAMELA MUMFORD, ELIZABETH EVANS and J. WELLS	74A
