

SUBSCRIPTION RATES

Subscription rates (post free) for Volume 35 (2003) of *Advances in Applied Probability* are as follows:

US\$223.00; \$A413.00; £145.50 for libraries and institutions;

US\$74.25; \$A137.75; £48.50 for individuals belonging to a recognised scientific society.

Please send all enquiries to: Applied Probability, School of Mathematics and Statistics, University of Sheffield, Sheffield S3 7RH, UK.

We can provide back issue prices on application. Cheques, money orders, etc. should be made out to APPLIED PROBABILITY. Payment is accepted in US, UK or Australian currency or by VISA or Mastercard (phone: +44 114 222 3922; fax: +44 114 272 9782).

NOTES FOR CONTRIBUTORS

Contributors in *Advances* may be of six kinds:

(1) *review papers*; (2) *longer research papers* in applied probability, which may include expository material; (3) *expository papers* on branches of mathematics of interests to probabilists; (4) *papers outlining areas in the biological, physical, social and technological sciences* in which probability models can usefully be developed; (5) *papers in applied probability* presented at conferences which do not publish their proceedings; (6) *letters to the editor* on any appropriate topic in applied probability. In addition, the SGSA section includes contributions relating to stochastic geometry and statistical applications. Letters relating specifically to papers which have appeared in the *Journal of Applied Probability* will continue to be published in that journal.

Shorter research papers and *short communications* are published in the *Journal of Applied Probability*. The editors may publish accepted papers in either journal, however, according to the space available, in order to meet publication deadlines.

Submission of papers

Papers submitted to the Applied Probability journals are considered on the understanding that they have not been published previously and are not under consideration by another publication. Papers will not be reprinted without the written permission of the Trust. It is the policy not to accept for publication papers which cannot appear in print within 15 months of the date of receipt of the final version. Fifty reprints of each paper will be provided free; additional reprints are available at cost.

Papers should be written in English or French; papers in other languages may be accepted by the editors, but will appear (subject to the author's agreement) in English or French translation. Please supply *three* double-spaced hard copies, at least one of which should be printed on one side of the paper only. The paper should include: (1) a short abstract of approximately 4–10 lines giving a non-mathematical description of the subject matter and results; (2) list of keywords detailing the contents for the purposes of computerised information retrieval; (3) primary and secondary classifications according to the 2000 Mathematics Subject Classification.

Authors are advised to consult *The Author's Guide to the Applied Probability Journals* when preparing papers for submission. A copy of this guide may be obtained free of charge from the Applied Probability Office. An updated version of the guide, with LATEX style files, can be obtained in electronic form on <http://www.appliedprobability.org> or on PC-compatible disk from the Applied Probability Office. For instructions on how papers may be submitted electronically, please consult the notes for contributors at the above URL.

For efficiency in processing, authors are requested to send all submissions to the Applied Probability Office in Sheffield, rather than to individual editors. The address for all submissions is:

**Executive Editor, Applied Probability, School of Mathematics and Statistics,
University of Sheffield, Sheffield S3 7RH, UK.**

COPYRIGHT

The copyright of all published papers is vested in the Trust. When a paper is accepted for publication, the Trust asks the author(s) to assign copyright to the Trust by signing a form in which the terms of copyright are listed. Failure to do this promptly may delay or prevent publication.

Authorisation to photocopy items for internal or personal use, or for the internal or personal use of specific clients, is granted by the Applied Probability Trust for libraries and other users registered with the Copyright Clearance Centre (CCC) Transactional Reporting Service, provided that the base fee of \$00.70 per copy, plus 0.20 per page is paid directly to CCC, 222 Rosewood Drive, Danvers, MA 01923, USA (<http://www.copyright.com>). 0001-8678/03 \$00.70 + 020.

Stochastic Geometry and Statistical Applications

- 295 STEPHAN BÖHM AND VOLKER SCHMIDT. Palm representation and approximation of the covariance of random closed sets
- 303 MARIA DEIJFEN. Asymptotic shape in a continuum growth model
- 319 UTE HAHN, EVA B. VEDEL JENSEN, MARIE-COLETTE VAN LIESHOUT AND LINDA STOUGAARD NEILSEN. Inhomogeneous spatial point processes by location-dependent scaling
- 337 ROLAND MAIER AND VOLKER SCHMIDT. Stationary iterated tessellations
- 354 JULIEN MICHEL AND KATY PAROUX. Local convergence of the Boolean shell model towards the thick Poisson hyperplane process in the Euclidean space
- 362 Correction

General Applied Probability

- 363 F. M. DEKKING AND L. E. MEESTER. An almost sure result for path lengths in binary search trees
- 377 AMKE CALIEBE. Symmetric fixed points of a smoothing transformation
- 395 A. GEFFERTH, D. VEITCH, I. MARICZA, S. MOLNÁR AND I. RUZSA. The nature of discrete second-order self-similarity
- 417 R. A. DONEY AND P. S. GRIFFIN. Overshoots over curved boundaries
- 449 G. YIN, Q. ZHANG AND G. BADOWSKI. Discrete-time singularly perturbed Markov chains: aggregation, occupation measures, and switching diffusion limit
- 477 THIERRY HUILLET. Energy cascades as branching processes with emphasis on Neveu's approach to Derrida's random energy model
- 504 S. G. KOU AND HUI WANG. First passage times of a jump diffusion process
- 532 HÅKON K. GJESSING, ODD O. AALEN AND NILS LID HJORT. Frailty models based on Lévy processes
