## **The Use of Drugs in Psychiatry**

By John Crammer, Brian Barraclough and Bernard Heine

**Price:** £3.95 (US\$9) from bookshops or from Headley Brothers.  
To members of the Royal College of Psychiatrists and subscribers to the  
*British Journal of Psychiatry* – £2.95, US\$7.  
Price includes postage and packing.

A pocket book for everyone who has to help in the treatment and management of psychiatric patients – psychiatrists in training, family doctors, casualty doctors, nurses, social workers, clinical psychologists, pharmacists.

An introductory section explains the principles behind the use of drugs in man. This section is followed by short essays on the diagnosis and management of the principal psychiatric disorders. The last section describes the most commonly used drugs, their indications, mode of use, side-effects and the different sizes of tablets and injections available for prescription.

Finally, electroconvulsive therapy is described, including the medico-legal side and a practical account of how to give it.

An index permits ready access to the contents of a book full of useful facts.
