PROBLEMS AND SOLUTIONS

- PROBLEMS**
- Badi H. Baltagi** Hausman's Specification Test as a Gauss–Newton Regression 757
- Risto Heijmans** Asymptotic Properties of the Least-Squares Estimator of the Variance  
in a Linear Model 757
- R.W. Farebrother** Multivariate Regression Subject to Orthogonality Conditions 758
- SOLUTIONS**
- David L. Ryan and Denise Young** Instrument Selection for Consistent IV Estimators 758
- Antonio Montañés** Reasonable Spurious Regressions 760
- Simo Puntanen and George P.H. Styan** Orthogonal Projectors 764
- Geert Dhaene** Ordered-Reversed Stochastic Processes May Be Nonstochastic 765
- Francisco Goerlich** The Symmetry of a Moore–Penrose Inverse 766
