8. The Purpose of the Biblical Genealogies

With Special Reference to
the Setting of the
Genealogies of Jesus

MARSHALL D. JOHNSON

Dr Johnson shows that the biblical genealogies are not merely appendices to biblical narrative; in language, structure and theology they are closely related to their context. In the development of the genealogies from the early ones of the Pentateuch to those of the Gospels, he points to a transition from a form of tribal expression to a literary expression which emphasized Jesus as the fulfilment of the hope of Israel. 8os. net

9. The Tendencies of the Synoptic Tradition

E. P. SANDERS

The synoptic gospels contain traditions about Jesus which differ in some respects from gospel to gospel, and, scholars believe, from the very earliest Christian tradition, and the methods and criteria they use are of the greatest importance. Dr Sanders has reassessed the whole problem, comparing the textual and literary traditions and calling into question many assumptions which have influenced New Testament criticism.
