Editorial

Imaging for vestibular schwannoma in the old: practice versus reason. Predictors of disease progression after endoscopic sinus surgery: *M Hussain, J Fishman, E Fisher* 639

Review Articles

Screening for vestibular schwannoma in the context of an ageing population: *S Basu, R Youngs, A Mitchell-Innes* 640

MicroRNAs in acquired sensorineural hearing loss: *HHR Chen, P Wijesinghe, DA Nunez* 650

Main Articles

Long-term outcomes of ossiculoplasty using bone cement: *B Demir, A Binnetoglu, A Sahin, U Derinsu, Ç Batman* 658

Long-term status of middle-ear aeration post canal wall down mastoidectomy: *T Ezulia, BS Goh, L Saim* 662

Benefits of pre-labyrinthectomy intratympanic gentamicin: contralateral vestibular responses: *N Amiraraghi, M Gaggini, JA Crowther, R Locke, W Taylor, G Kontorinis* 668

Transnasal inferior meatal antrostomy with a mucosal flap for post-Caldwell–Luc mucocoeles in the maxillary sinus: *M Suzuki, T Matsumoto, M Yokota, K Toyoda, Y Nakamura* 674

Predictors of disease progression after endoscopic sinus surgery in patients with chronic rhinosinusitis: *K Tsuzuki, K Hashimoto, K Okazaki, H Nishikawa, M Sakagami* 678

Use of an image-guided navigation system for routine endonasal endoscopic dacryocystorhinostomy: *O Reichel, M Taxeidis* 685

A novel prognostic biomarker for recurrent aphthous stomatitis: calprotectin: *S Kayabasi, I Kuzucu* 691

The use of fluorescence lifetime technology in benign and malignant thyroid tissues: *G Nakache, G Yahav, GH Siloni, I Barshack, E Alon, M Wolf, D Fixler* 696

Simulation training in laser safety education: the use of technical and non-technical skills simulation in a comprehensive laser safety course: *C Hall, S Okhovat, TD Milner, J Montgomery, A Hitchings, T Kunanandam, WA Clement* 700

Two week wait referral criteria – heading in the right direction?: *C Gao, C Qin, S Freeman, N Oskooee, J Hughes* 704

Work-related musculoskeletal symptoms in otorhinolaryngology and their relationship with physical activity. A nationwide survey: *D Lobo, MA Gandarillas, S Sánchez-Gómez, R Megia* 713

Short Communications

Paediatric Bonebridge: bilateral simultaneous asymmetrical implantation: *K Dusu, M Walsh, N Eze* 719

Fibro-muscular-periosteal flap and bilobed flap for post-auricular cutaneous mastoid fistula closure: *AL Pendolino, C Pavone, E Zanoletti* 723

Closure of tracheocutaneous fistula using prefabricated conchal bowl cartilage and a supraclavicular flap: *N Mundi, KB Patel, DH Yeh, AC Nichols* 727

Clinical Record

The ancient practice of sutra neti leading to velopharyngeal stenosis: case report: *H Tiwana, RS Virk, V Gautam* 730
