## A MUTED FURY

Populists, Progressives, and Labor Unions  
Confront the Courts, 1890-1937

WILLIAM G. ROSS

For half a century before 1937, populists, progressives, and labor leaders complained bitterly that a "judicial oligarchy" impeded social and economic reform by imposing crippling restraints on trade unions and nullifying legislation that regulated business corporations. *A Muted Fury* explains the origins of hostility toward the courts during the Progressive Era, examines in detail the many measures that antagonists of the judiciary proposed for the curtailment of judicial power, and evaluates the successes and failures of the anti-court movements.

"Ross's study fills an important gap in American constitutional history. . . . He never loses sight of the larger political and social world within which courts function, and his study has much to offer any reader interested in the emergence of modern American institutions."

# Continuity and Change

**A journal of social structure, law and demography in past societies**

Now in its eighth year, **Continuity and Change** defines a field of social history concerned with long-term continuities and discontinuities in the structures of past societies. Emphasising studies that draw on more than one of the traditional fields such as history, sociology, law, demography, economics or anthropology, the journal is committed to comparative studies over a broad range of cultures and time spans. It provides a balance between quantitative and qualitative data from the contributing disciplines, promoting greater dialogue and discussion among researchers and making their work accessible to a wider audience.

## **Citizen Worker**

The Experience of Workers in the United States with Democracy and the Free Market during the Nineteenth Century  
*David Montgomery*

This original and significant work examines the relationship between workers and government by focusing not on the legal regulations of unions and strikes, but on the popular struggles for citizens' rights. The extent and failures of workers' efforts to exercise power through political parties provide insights from the nineteenth century to guide our thinking about the twenty-first.  
42057-1 Hardcover \$21.95

## **Home to Work**

Motherhood and the Politics of Industrial Homework in the United States

*Eileen Boris*

From the 1870s, when New York cigar-makers attempted to end tenement competition, to New Deal prohibitions in the 1930s, gender prejudices shaped the battle over homework. But by the 1980s, the middle-class mother at the keyboard replaced the victimized immigrant as the symbol of homework. *Home to Work* restores the voices of homeworking women to the century-old debate over their labor.
