Japan's Dependence on the World Economy

The Approach to Economic Liberalization

By Leon Hollerman

In order to affirm its status as an "advanced industrial nation," Japan has formally adopted a sweeping program of liberalization on its own trade and payments. Mr. Hollerman analyzes the changes in the structure of Japan's industrial production and its foreign trade, and, applying the theory of industrial organization at the international level, evaluates Japan's performance and public policy in external economic affairs.

Chinese Calligraphers and Their Art

CH'EN CHIH-MAI

A study of the lives of the great Chinese calligraphers and the aesthetics of their work.

Dr. Ch'en begins with a detailed description of the various scripts of Chinese written language, from the earliest inscriptions on bronzes and oracle bones through the innovations of later centuries.

He identifies the major calligraphers from Wang Hsi-chih to Yü Yu-jên (d. 1964). He then discusses calligraphy as an art, as it is seen by the Chinese, and its relation to such theories of modern art as abstractionism, constructionism, and action painting.

Eighty masterpieces of Chinese calligraphy are reproduced and discussed. xx + 286 pages. *Published for Melbourne University Press.* \$22.50

New texts on Asia in the CONTEMPORARY GOVERNMENT SERIES...

**GOVERNMENT AND
POLITICS IN MALAYSIA**

R. S. Milne

The success or failure of democracy in Malaysia may determine the future of *all* Southeast Asian countries. **GOVERNMENT AND POLITICS IN MALAYSIA** is, consequently, a timely examination of this country and its problems. Its author, R. S. Milne, knows the country and its problems well, having lived and taught in Singapore during the period when Malaysia was conceived and brought into existence. Dr. Milne's knowledge of Malaysia is reflected in his new book which deals comprehensively with the government and politics of the Federation of Malaysia. After an introduction to the history of the area from the period of colonial rule to the emergence of the Federation in 1963, Dr. Milne discusses the formal structure of the Malaysian government as well as its informal organizations. He concentrates on the problems of federal-state relations and national unity, and coverage extends through the end of the confrontation with Indonesia. This text will be a valuable addition to all courses on Southeast Asia.

**THE POLITICAL SYSTEM
OF PAKISTAN**

Khalid B. Sayeed

Building a unified nation from diverse forces while promoting economic and social development is the major problem Pakistan faces today—this is also the theme of Dr. Khalid B. Sayeed's new book. Based on extensive original research, it discusses the intensity of Muslim nationalism in guiding the development of Pakistan as a nation, and shows how this force has maintained and invigorated Pakistan's political system. The first three chapters examine the strengths and weaknesses of the forces that culminated in the creation of Pakistan; following chapters on bureaucracy, parties, elections, and Basic Democracies evaluate the viability of the political system that has emerged. Sections on Islam, regionalism, and foreign relations focus on the challenges Pakistan continues to face. Because of its proximity to such powers as the Soviet Union and China, Pakistan's stability is essential to world peace. The most informative study of this important country is now available in **THE POLITICAL SYSTEM OF PAKISTAN**.

THE JAPANESE COMMUNIST MOVEMENT, 1920-1966

Robert A. Scalapino. In this authoritative account of the evolution of the Japanese Communist Party from its beginnings to its present situation, an acute student of Asian society provides an arresting portrait of a political party that, by orthodox Marxist criteria, should have risen to first importance but never did. Mr. Scalapino's account of the inability of the party to draw lasting political advantage from the opportunities that have presented themselves over the years is notable for its grasp of Japanese political realities. *A publication of the Center for Japanese and Korean Studies.* \$6.50

by WALDO H. HEINRICHS, JR.
Department of History,
University of Tennessee

Based on Ambassador Grew's own extensive papers, this definitive volume traces the entire fascinating story of the dedicated man who helped establish American diplomacy on a career basis. At the same time, Professor Heinrichs has provided a revealing history of America's diplomatic service, an examination of several of the special problems faced by diplomats, and a significant contribution toward understanding America's singular role in 20th-century international affairs.

"Grew's career spanned American diplomacy from Theodore Roosevelt to Harry Truman. He also happened to find himself in two key posts at key moments — Berlin in 1917 and Tokyo in 1941 . . . This substantial study . . . does provide a working blueprint, as it were, of an American diplomat in action in fair times and foul . . . [and] evaluates his performance in a way he could not possibly have done himself." — *John Barkham, Saturday Review Syndicate*. Illustrated with photos. \$10.50 at all bookstores

ASIAN SURVEY

Leading American monthly devoted exclusively to current developments in Asia. Coverage of political, economic and social trends in such societies as Communist China, India, Japan, Pakistan, Korea, Indonesia, and Burma.

In recent issues, ASIAN SURVEY articles have analyzed such topics as Communist China's educational policy, the 4th General Elections in India, the Mekong River Valley Project, local leadership styles in Japan and, in a special structured issue, charismatic leadership in Asia.

In addition to the regular issues, subscribers receive two structured issues in January and February surveying trends for the previous years throughout East and South Asia.

Rates: \$8 per year for 12 issues (\$9 for overseas subscribers). Special student rate: \$4 per year. ASIAN SURVEY, University of California, 2234 Piedmont Avenue, Berkeley, California 94720.
