

PUBLICATIONS OF THE ASSOCIATION.

Journal of the Marine Biological Association.

OLD SERIES.

No. 1, AUGUST, 1887 (only a few copies left, reserved for Libraries).

No. 2, AUGUST, 1888. Price 1s.

NEW SERIES (*Royal 8vo*).

Volume I., 1889-90, 472 pp., 28 plates.

Volume II., 1891-2, 410 pp., 14 plates.

Volume III., 1893-4, xxxviii. and 458 pp., 5 plates and 25 woodcuts.

Volume IV., 1895-7, iv. and 425 pp.

Volume V., 1897-9, 550 pp. and 16 plates.

Volume VI., 1899-1903, 676 pp., 3 charts and 7 plates.

Volume VII., Nos. 1, 2, 3, 4, and 5.

Separate numbers (generally 4 to one volume), in wrappers, 3s. 6d.; to Members, 2s. 8d.

London Agents: Messrs. DULAU & Co., 37 Soho Square, W.

Cloth 4to, 150 pp., 18 plates (12 coloured).

A TREATISE ON THE COMMON SOLE.

BY

J. T. CUNNINGHAM, M.A., F.R.S.E.,

Late Fellow of University College, Oxford; Naturalist to the Association.

Price to Members, 20s.; to Non-Members, 25s.

Medium 8vo, 368 pages. 159 Illustrations and two Maps. Price 7s. 6d. net.

(Macmillan & Co., London.)

THE NATURAL HISTORY OF THE MARKETABLE
MARINE FISHES OF THE BRITISH ISLANDS.

Prepared expressly for the use of those interested in the Sea-fishing Industries,

BY

J. T. CUNNINGHAM, M.A.,

FORMERLY FELLOW OF UNIVERSITY COLLEGE, OXFORD;

NATURALIST ON THE STAFF OF THE MARINE BIOLOGICAL ASSOCIATION.

With Preface by

E. RAY LANKESTER, M.A., LL.D., F.R.S.,

PROFESSOR OF COMPARATIVE ANATOMY IN THE UNIVERSITY OF OXFORD.

PUBLICATIONS OF THE INTERNATIONAL COUNCIL FOR THE STUDY OF THE SEA.

BULLETIN DES RÉSULTATS ACQUIS PENDANT LES COURSES PÉRIODIQUES.

PUBLISHED QUARTERLY. Price per Volume of Four Numbers,
18 Kroner (£1).

RAPPORTS ET PROCÈS-VERBAUX DES RÉUNIONS.

- VOL. I., 1902-3. Kr. 6.
VOL. II., 1903-4. Kr. 4.
VOL. III., 1902-4 (General Report). Kr. 15.
VOL. IV., 1904-5. Kr. 4.

PUBLICATIONS DE CIRCONSTANCE.

- No. 1. **C. G. Joh. Petersen**: How to Distinguish between Mature and Immature Plaice throughout the Year. A Preliminary Communication. 8 pp. 1 pl. July, 1903. Kr. 1.
- No. 2. **Martin Knudsen**: On the Standard-Water used in the Hydrographical Research until July, 1903. 9 pp. July, 1903. Kr. 0.50.
- No. 3. Die Literatur der zehn wichtigsten Nutzfische der Nordsee. In monographischer Darstellung. 112 s., 10 T; August, 1903. Kr. 3.
The Literature of the Ten Principal Food Fishes of the North Sea. In the form of compendious monographs. 108 pp. 10 pl. August, 1903. Kr. 3.
- Nos. 4-5. **Martin Knudsen**: Ueber den Gebrauch von Stickstoffbestimmungen in der Hydrographie.
—— — Gefrierpunkttabelle für Meerwasser.
Zusammen 13 s. September, 1903. Kr. 0.75.

PUBLICATIONS OF THE INTERNATIONAL COUNCIL
FOR THE STUDY OF THE SEA—continued.

- No. 6. **Harry M. Kyle**: On a New Form of Trawl Net, designed to fish in midwater as well as on the ground. Preliminary notice. 8 pp. November, 1903. Kr. 0.50.
- No. 7. **P. J. van Breemen**: Ueber das Vorkommen von *Oithona nana* Giesbr. in der Nordsee. (Aus dem niederlaendischen Institut für Meeresforschung.) 24 s. Mit einer Karte. November, 1903. Kr. 1.

OBJECTS

OF THE

Marine Biological Association of the United Kingdom.

THE ASSOCIATION was founded at a Meeting called for the purpose in March, 1884, and held in the Rooms of the Royal Society of London.

The late Professor HUXLEY, at that time President of the Royal Society, took the chair, and amongst the speakers in support of the project were the late Duke of ARGYLL, the late Sir LYON PLAYFAIR, Lord AVEBURY, Sir JOHN HOOKER, the late Dr. CARPENTER, Dr. GÜNTHER, the late Lord DALHOUSIE, the late Professor MOSELEY, the late Mr. ROMANES, and Professor LANKESTER.

The Association owes its existence and its present satisfactory condition to a combination of scientific naturalists, and of gentlemen who, from philanthropic or practical reasons, are specially interested in the great sea fisheries of the United Kingdom. It is universally admitted that our knowledge of the habits and conditions of life of sea fishes is very small, and insufficient to enable either the practical fisherman or the Legislature to take measures calculated to ensure to the country the greatest return from the "harvest of the sea." Naturalists are, on the other hand, anxious to push further our knowledge of marine life and its conditions. Hence the Association has erected at Plymouth a thoroughly efficient Laboratory, where naturalists may study the history of marine animals and plants in general, and where, in particular, researches on food-fishes and molluscs may be carried out with the best appliances.

The Laboratory and its fittings were completed in June, 1888, at a cost of some £12,000. Since that time investigations, practical and scientific, have been constantly pursued at Plymouth. Practical investigations upon matters connected with sea-fishing are carried on under the direction of the Council; in addition, naturalists from England and from abroad have come to the Laboratory, to carry on their own independent researches, and have made valuable additions to zoological and botanical science, at the expense of a small rent for the use of a working table in the Laboratory and other appliances. The number of naturalists who can be employed by the Association in special investigations on fishery questions, and definitely retained for the purpose of carrying on those researches throughout the year, must depend on the funds subscribed by private individuals and public bodies for the purpose. The first charges on the revenue of the Association are the working of the sea-water circulation in the tanks, stocking the tanks with fish and feeding the latter, the payment of servants and fishermen, the hire and maintenance of fishing-boats, and the salary of the Resident Director and Staff. At the commencement of this number will be found the names of the gentlemen on the staff.

In the summer of 1902 the Association was commissioned by His Majesty's Government to carry out in the southern British area the scheme of International Fishery Investigations adopted by the Conference of European Powers which met at Christiania in 1901. In connection with this work a laboratory has been opened at Lowestoft.

The purpose of the Association is to aid at the same time both science and industry. It is national in character and constitution, and its affairs are conducted by a representative Council, by an Honorary Secretary and an Honorary Treasurer, without any charge upon its funds, so that the whole of the subscriptions and donations received are devoted absolutely to the support of the Laboratory and the prosecution of researches by aid of its appliances. The reader is referred to page 4 of the Cover for information as to membership of the Association.

NOTICE.

The Council of the Marine Biological Association wish it to be understood that they do not accept responsibility for statements published in this Journal excepting when those statements are contained in an official report of the Council.

TERMS OF MEMBERSHIP.

		£	s.	d.
Annual Members	per annum	1	1	0
Life Members	Composition Fee	15	15	0
Founders		100	0	0
Governors		500	0	0

Members of the Association have the following rights and privileges: they elect annually the Officers and Council; they receive the Journal of the Association free by post; they are admitted to view the Laboratory at Plymouth, and may introduce friends with them; they have the first claim to rent a place in the Laboratory for research, with use of tanks, boats, &c.; and have access to the books in the Library at Plymouth.

All correspondence should be addressed to the Director, The Laboratory, Plymouth.
