JOURNAL of PALEONTOLOGY

VOL 97 | NO 6 | NOVEMBER 2023

REGULAR ARTICLES

- 1161 Michael J. Orchard and Martyn L. Golding**
The *Neogondolella constricta* (Mosher and Clark, 1965) group in the Middle Triassic of North America: speciation and distribution
- 1192 Roberto Videira-Santos and Sandro Marcelo Scheffler**
The *Tropidoleptus carinatus* controversy: Did this brachiopod occur in the Devonian of the Paraná Basin, Brazil?
- 1206 Wagih S. Ayoub-Hannaa, Michael R. Cooper, Ahmed A. Abdelhady and Franz T. Fürsich**
Jurassic Trigoniida (Bivalvia) from Gebel Maghara, northern Sinai, Egypt
- 1233 Jan Bohatý, Markus J. Poschmann, Peter Müller and William I. Ausich**
Putting a crinoid on a stalk: new evidence on the Devonian diplobathrid camerate *Monstrocrinus*
- 1251 Ralf Werneburg, Florian Witzmann, Larry Rinehart, Jan Fischer and Sebastian Voigt**
A new eryopid temnospondyl from the Carboniferous–Permian boundary of Germany
- 1282 Austin J. Ashbaugh, Craig S. Scott, Gregory P. Wilson Mantilla and Jessica M. Theodor**
Species discrimination in the multituberculate *Mesodma* Jepsen, 1940 (Mammalia, Allotheria): considerations of size, shape, and form
- 1293 Shawn P. Zack and Tonya A. Penkrot**
New material of *Lophiparamys debequensis* from the Willwood Formation (early Eocene) of Wyoming, including the first postcrania of the genus
- 1309 Atzcalli Ehécatl Hernández-Cisneros, Tobias Schwennicke, Heriberto Rochín-Bañaga and Cheng-Hsiu Tsai**
Echericetus novellus n. gen. n. sp. (Cetacea, Mysticeti, Eomysticetidae), an Oligocene baleen whale from Baja California Sur, Mexico

Cover illustration: Lateral view of the cast of the most complete known *Monstrocrinus* (no. NHMMZ PWL 2021/6145-LS), *M. granosus* Schmidt, 1941, from the uppermost section of the Emsian *Orthocrinus* Beds (*Polygnathus costatus patulus* Conodont Biozone) of the former brick factory in the Osterbachtal, northwest of Olpe Lütringhausen (administrative district Arnsberg, Sauerland, North Rhine–Westphalia, Germany). Bohatý et al., Fig. 10.
