# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

## *Membership*

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 72, 2019, which includes print and electronic access, is £667 (USA, Canada and Mexico US \$1204) and includes delivery by air; single parts are available at £121 (USA, Canada and Mexico US \$218) plus postage. The electronic-only price available to institutional subscribers is £517 (USA, Canada and Mexico US \$942). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

# THE JOURNAL OF NAVIGATION

VOLUME 72 • NUMBER 2 • MARCH 2019

## CONTENTS

<b>On the Location of Shackleton's Vessel <i>Endurance</i></b>	257
<i>Lars Bergman and Robin G. Stuart</i>	
<b>Bi-level Game Model for Interaction between Arctic and Traditional Routes</b>	269
<i>Yangjun Wang and Ren Zhang</i>	
<b>A Novel Similarity Measure for Clustering Vessel Trajectories Based on Dynamic Time Warping</b>	290
<i>Liangbin Zhao and Guoyou Shi</i>	
<b>Simplification and Event Identification for AIS Trajectories: the Equivalent Passage Plan Method</b>	307
<i>Luis Felipe Sánchez-Heres</i>	
<b>Trajectory Tracking and Re-planning with Model Predictive Control of Autonomous Underwater Vehicles</b>	321
<i>Zhen Hu, Daqi Zhu, Caicha Cui and Bing Sun</i>	
<b>Multi-antenna GNSS and INS Integrated Position and Attitude Determination without Base Station for Land Vehicles</b>	342
<i>Xiaobo Cai, Houtse Hsu, Hua Chai, Leixiang Ding and Yong Wang</i>	
<b>Adaptive Multi-beamforming for Space-based ADS-B</b>	359
<i>Sunquan Yu, Lihu Chen, Songting Li and Xiang Zhang</i>	
<b>A Hybrid Intelligent Algorithm DGP-MLP for GNSS/INS Integration during GNSS Outages</b>	375
<i>Yuxin Zhang and Lihui Wang</i>	
<b>Estimation of Visual Shoreline Navigation Errors</b>	389
<i>Vladimir A. Grishin</i>	
<b>Multi-Equal-Collision-Probability-Curve Method for Convex Polygon-shape Spacecraft Safe Proximity Manoeuvres</b>	405
<i>Wang Yi, Chen Xiaoqian, Ran Dechao, Ou Yangwei, Ni Qing and Bai Yuzhu</i>	
<b>Automatic Ship Routing with High Reliability and Efficiency between Two Arbitrary Points at Sea</b>	430
<i>Shuaidong Jia, Zeyuan Dai and Lihua Zhang</i>	
<b>Statistical Model and Performance Evaluation of a GNSS Spoofing Detection Method based on the Consistency of Doppler and Pseudorange Positioning Results</b>	447
<i>Fengkui Chu, Hong Li, Jian Wen and Mingquan Lu</i>	
<b>Dynamic Fuzzy Ship Domain Considering the Factors of Own Ship and Other Ships</b>	467
<i>Dan Zhou and Zhongyi Zheng</i>	
<b>Multivariate Constrained GNSS Real-time Full Attitude Determination Based on Attitude Domain Search</b>	483
<i>Hongtao Wu, Xiubin Zhao, Chunlei Pang, Liang Zhang and Bo Feng</i>	
<b>New Formulae for Combined Spherical Triangles</b>	503
<i>Tsung-Hsuan Hsieh, Shengzheng Wang, Wei Liu and Jiansen Zhao</i>
