# Registry of Retired Professors

The Association has established a Registry of Retired Professors. The Registry serves as an information exchange for those retired professors who are willing to teach one or more courses on a one-semester or one-year basis, and those institutions desiring to make such appointments. Any retired professor wishing to be listed in the Registry should contact the Association to receive an application form. Departmental chairmen wishing to inquire about the availability of retired professors in a certain specialty or geographic area should write specifying their requirements.

## THE AMERICAN POLITICAL SCIENCE ASSOCIATION PERSONNEL SERVICE

The American Political Science Association's Personnel Service operates as a clearinghouse, bringing together political scientists seeking positions and prospective employers. Registration in the service is open to members of the Association and to Political Science Departments. Membership in the Service, which includes a subscription to the monthly Newsletter (except September), is \$8.00 per year. Membership in the Credential Referral Service of the Personnel Service is an additional \$8.00. The dues into Personnel Service cover one academic year—from October to August.

### NEWSLETTER

A Newsletter, listing openings for political scientists including teaching, administrative and research openings, is mailed monthly to all Personnel Service members. Positions are listed by institution with a brief description of each opening.

### CREDENTIAL REFERRAL SERVICE

A file will be maintained at the Association office for all members of the Credential Referral Service. This file will include a resume, a dissertation abstract and/or a list of publications and up to three letters of reference for each member. Referrals are made upon the request of a member or of an institution.

### EMPLOYERS USING THE SERVICE

The Association's Council has adopted a policy that it is a professional obligation of all political science departments to list publicly all vacancies in the APSA Personnel Service Newsletter for which they are recruiting at the Instructor, Assistant and Associate Professor levels. In addition, the listing of openings at the Full Professor level is strongly encouraged. There is no cost to the institution listing its vacancies with the Service. Forms for listing openings in the Newsletter are available from the Personnel Service.

## GRANTS FOR ASIAN POLITICAL SCIENTISTS

The American Political Science Association again has received from The Asia Foundation a small grant for encouraging closer relations between Asian and American political scientists. The funds will be used in three ways:

- 1) To enable Asian political scientists to become members of The American Political Science Association for a one-year period. Membership includes subscription to *The American Political Science Review* and *PS*. To be eligible, applicants must (currently) reside in one of the Asian countries listed below.
- 2) To enable libraries, university departments, and research institutes in Asia, who have heretofore been unable to do so, to subscribe to *The American Political Science Review* and *PS*.
- 3) To supplement travel expenses (maximum \$100) of Asian political scientists who are temporarily in the United States and who wish to attend meetings of The American Political Science Association. The next meeting will be held September 2 through September 5, 1975, at the San Francisco Hilton Hotel, California.

Applicants must be at least at the graduate student level and may come from any of the following Asian countries: Afghanistan, Burma, Cambodia, Ceylon, Hong Kong, India, Indonesia, Japan, Korea, Laos, Malaysia, Nepal, Pakistan, the Philippines, the Ryukyus, the Republic of China (Taiwan), Singapore, Thailand, and Vietnam. Applicants who have not previously received grants will be given first consideration. Application Deadline: July 25.

Application forms may be obtained from The American Political Science Association, 1527 New Hampshire Avenue, N.W., Washington, D.C. 20036.

## Religion and Revolution

**GUENTER LEWY**, University of Massachusetts, Amherst. □ Through seventeen case studies that cover a vast range of traditions and cultures, Lewy brings challenging new insights to the complex relationship between politics and religion. "[It] will be read and discussed by scholars for many years."

—Myron Weiner, Mass. Inst. of Technology  
1974 704 pages \$17.50

## Israeli Ecstasies/Jewish Agonies

**IRVING LOUIS HOROWITZ**, Rutgers University. □ "Direct and provocative, yet written with compassion and deep sympathy. . . . The Jewish question is dealt with in all of its ramifications."

—Amos Perlmutter, American University  
1974 272 pages \$7.50

## The Brazilian Communist Party

*Conflict and Integration, 1922-1972*

**RONALD H. CHILCOTE**, University of California, Riverside. □ Chilcote examines and analyzes the Brazilian Communist Party from historical, political, and economic perspectives. He focuses on party structure, both local and national, and studies the interaction of the Communist party with Brazilian society as a whole.

1974 368 pages \$15.00

## Imperialism and Nationalism in the Fertile Crescent

*Sources and Prospects of the Arab-Israeli Conflict*

**SIR RICHARD ALLEN**. □ Avoiding the oversimplifications of partisan writings and drawing on his long experiences in the British Diplomatic Service, Allen has written a thorough, balanced and concise history of this centuries-old conflict, emphasizing the crucial role of major world powers, from the Persian Empire to the U.S.

## **Politics in Zambia**

**Edited by William Tordoff**

These essays trace the growth of sectional groups in Zambia after independence, and identify them as essentially interest groups competing for scarce economic resources. The essays analyze the effect of this sectionalism on UNIP, Zambia's ruling party, and examine the nature of the political competition in Zambia. 416 pages \$14.00

## **Urban Politics in Nigeria**

**A Study of Port Harcourt**

**Howard Wolpe**

Mr. Wolpe's study explores the relationship between modernization and communal conflict through an examination of the changing patterns of social cleavage and political power in Port Harcourt, a major Nigerian city. 336 pages Maps \$16.75

## **Internal Colonialism**

**The Celtic Fringe in British National Development, 1536-1966**

**Michael Hechter**

Why do the inhabitants of Wales, Scotland and Ireland persist in maintaining an ethnic identity opposed to England? Mr. Hechter analyzes the relationship between England and the peripheral regions, and explains Great Britain's failure to develop as one nation. 300 pages \$12.50

## **Lord William Bentinck**

**The Making of a Liberal Imperialist, 1774-1839**

**John Rosselli**

This first full account of the life of Lord William Bentinck, a reforming Governor-General of India in 1828-35, studies his whole career in its historical setting. Mr. Rosselli avoids straightforward biography and chronological narrative; instead he provides a series of essays on historical problems that Bentinck's career illuminates. 384 pages Illustrations \$15.00

## **State and Society**

**A Reader in Comparative Political Sociology**

**Edited by Reinhard Bendix**

Economic history and comparative economics have been greatly influenced by Marx's image of the bourgeois revolution, and have focused on how modern society came to be, and how its achievements can be realized elsewhere. This reader examines related transformations in the political sphere, specifically, the emergence of the modern nation-state and its impact on societies around the world. 648 pages \$17.50

## **Curing the Mischiefs of Faction**

Party Reform in America

**Austin Ranney**

This study reviews the theory and practice of American party reform in the three main periods of change—1820-40, 1890-1920, and 1956-present. Mr. Ranney argues that party rules and procedures have never been politically neutral and shows that Americans have been ambivalent about the institution of parties. He suggests that reform has offered a convenient escape from the difficult choice of abolishing parties or smoothing their way.

256 pages \$8.50

## **Power in the City**

Decision Making in San Francisco

**Frederick Wirt**

San Francisco politics are beset with extraordinary problems. Power is divided among traditional and new minorities, the mayor, and a large city bureaucracy. Frederick Wirt's fascinating study is based on personal interviews, special reports, and a first-hand study of the transaction patterns in the political, business, labor, ethnic, and historical life of the city.

440 pages tables \$14.95

## **The Welfare State and Equality**

Structural and Ideological Roots of Public Expenditures

**Harold L. Wilensky**

In this study of rich (or "post-industrial") societies, Professor Wilensky offers systematic national comparisons of health and welfare data and many concrete testable propositions which can serve as a model for sociological theory in the middle range.

176 pages \$8.95 cloth, \$2.85 paper

## **Personality and Democratic Politics**

**Paul M. Sniderman**

How does a personality characteristic such as self-esteem become translated into political attitudes? How do individual differences in self-esteem affect who becomes an activist or a political leader? Sniderman addresses these questions in this study, which is the first of its kind to be based on large samples of both leaders and ordinary citizens.

320 pages \$12.50

## **Democrats and Progressives**

The 1948 Presidential Election as a Test of Postwar Liberalism

**Allen Yarnell**

This book tests the notion that third parties significantly influence one or both of the major parties. The author focuses on the response of the Democratic Party to the Henry Wallace Progressives in the 1948 campaign. Using both interviews with key figures and recently opened archives, he shows that Wallace's party did not force the Democrats to the left.

## **Urban Politics in India**

Area, Power, and Policy in a Penetrated System

**Rodney W. Jones**

State centralization of power and authority over urban affairs is the focus of this study. Based on the central Indian city of Indore, Mr. Jones traces the effects of linkages between states and locality on key results in local elections, leadership changes, factional dominance and policy making. Beyond the Indian situation the study has value for comparative research on urban and modernizing politics. 440 pages \$24.00

## **The Uncertain Verdict**

A Study of the 1969 Elections in Four Indian States

**Ramashray Roy**

Basing his investigation of Indian Elections on a survey of voting behavior in the states of Bihar, Punjab, Uttar Pradesh, and West Bengal, Dr. Roy clarifies the interaction of socioeconomic conditions, individual attributes, and democratic development. His book offers much of interest to political scientists and sociologists whether concerned mainly with India or political developments elsewhere. 304 pages \$11.00

## **Resistance and Revolution in China**

The Communists and the Second United Front

**Tetsuya Kataoka**

Mr. Kataoka shows that, contrary to previous analyses, the Communist movement was rurally oriented as early as 1928. He demonstrates that for Mao the united front was a means for keeping the Nationalists in the war and for combining anti-Japanese resistance with a full-scale revolution. 352 pages, Maps, \$16.50

## **Backward Toward Revolution**

The Chinese Revolutionary Party

**Edward Friedman**

Focusing on Sun Yat-sen and his Chinese Revolutionary Party, Mr. Friedman redefines the revolution of 1911 to encompass the motivations of rural rebels. He argues that the values and beliefs of the revolutionaries themselves were more influential than the organizational secrets about discipline and unity. 257 pages \$12.75

## **Bureaucratic Politics and Administration in Chile**

**Peter S. Cleaves**

This study of the housing, public works, financial, and agricultural sectors of the national government of Chile spans both the Frei and the Allende regimes. It is based on a large body of data gathered in open-ended interviews with 150 persons, including many high level administrators. 384 pages \$15.75

## COMMUNISM IN KOREA

ROBERT A. SCALAPINO  
&  
CHONG-SIK LEE

"The first and the most comprehensive accounts of the Communist movement in South Korea after 1945, of the rise of Kim Il-song as the director of North Korea, and of the political, economic, and social problems and achievements of North Korea."—*Journal of Asian Studies*

"The authors have produced a valuable piece of major research which fills a significant gap in our knowledge of both Korean communism and the democratic People's Republic of Korea."

—*Annals of the American Political and Social Science*

Part I, The Movement \$25.00  
Part II, The Society \$30.00

"This is, undoubtedly, the definitive work on communism in Korea."

—*Western Political Quarterly*

This IS NOT another textbook . . .

It IS a complete description of an alternative to high school government instruction.

A new approach to pre-collegiate political science education is detailed in this book. Rationale, development, and dissemination phases of the course are outlined, with special attention to instructional objectives and methodology.

Political systems are compared across school, local, national, and international levels. Inquiry and action are integrated by testing hypotheses about everyday political life, and practicing participation skills in the high school. The high school as a political laboratory is a unique focus of the course.

Prototype testing of the course is currently being conducted in high schools across the nation by the Social Studies Development Center at Indiana University, Bloomington, Indiana. The course is a project of the APSA Pre-Collegiate Education Committee.

America's Foreign Policies

By M. Glen Johnson and Howard Bliss, *Vassar College*

This brief overview traces America's foreign policy from development of the post World War II consensus to the breakdown of that consensus in the late 1960's and early 1970's. The authors deal with such matters as the nature of foreign policy; the major historic themes of U.S. foreign policy; the major characteristics of the post-war international system; the President and his primacy in policy making; the foreign affairs bureaucracy; Congress and foreign policy; and the impact of non-governmental institutions (the media, public opinion, interest groups) on foreign policy.

### Terms of Political Discourse

**William E. Connolly,**  
*University of Massachusetts—Amherst*  
1974 Paper 224 pages

This book analyzes how shared concepts or conventional wisdom distort political thought and action. To support his argument, Professor Connolly focuses on three important concepts in political inquiry—interest, power, and freedom—first probing the nature and import of contests over their definitions, and then staking out a position on these contests.

# LOOKING FOR A BETTER WAY?

Why not try

## **POLICY AND POLITICS IN AMERICAN GOVERNMENTS**

**IRA SHARKANSKY**, University of Wisconsin, and  
**DONALD S. VAN METER**, Ohio State University

Why not try a text with a logical, unifying focus. One that sets up a framework to help students examine why and how American governments have evolved and the reasons behind what governments do—or fail to do.

This short, selectively written introduction to American government emphasizes the formulation and delivery of public policy in the United States. Topics such as public opinion, political parties, interest groups and governmental institutions are examined in their relations to policy decisions.

And all levels of the political system receive thorough, *integrated* coverage—making students acutely aware of the interrelationships between national, state, and local government.

This just might be a better way to introduce your students to policy and politics in American government. 1975, 360 pages, paper, \$6.95

## How Communist States Change Their Rulers

**By MYRON RUSH.** The general character of Communist politics is viewed here from the special perspective provided by examining change at the summit of leadership. Professor Rush is concerned with how Communist leaders in Eastern Europe and China prepare for their succession, what circumstances cause them to leave office, and how their successors

come to power. After identifying the key elements in the succession process, he discusses specific instances such as those involving Novotny, Gomulka, and Ulbricht, and he offers a keen analysis of the pending successions in China and Yugoslavia, particularly the efforts made by Mao and Tito to anticipate them.

## French International Policy under de Gaulle and Pompidou

*The Politics of Grandeur*

**By EDWARD A. KOLODZIEJ.** Recent elections in France have raised serious questions about the future direction of French foreign relations. This timely study analyzes and assesses the key elements of French foreign policy under the Fifth Republic from 1958 to 1974. The author views France's strategic, economic, and diplomatic policies as means for achieving larger global aims; and conversely, he treats France's international policy as a way of attaining narrower national objectives.

# THE PASSAGE OF POWER

Studies in Political Succession

by ROBBINS BURLING

A Volume in the STUDIES IN ANTHROPOLOGY Series

In this volume one of America's most distinguished anthropologists brings fresh insight to an old and much-debated question: What is the best way to choose the chief power holder in a society? Defying the usual boundaries of anthropology, he has sought a universal principle of approach that may disturb those anthropologists who are totally committed to cultural relativism. He considers the most diverse possible range of societies—from ancient to modern times—and a wide variety of processes for political change: hereditary succession, elections, choice by the incumbent of his own successor, military coups, choice within a one-party system. Examining these case studies one by one, he comes up with some challenging—and perhaps controversial—

new theories on the societal ramifications of succession.

Equally important, the book offers a major examination—applying the techniques of modern anthropology, sociology, and political science—of the fundamental worth of the democratic process. Hence, an entire section of the book is devoted to analyses of the two types of systems that compete with electoral succession in our times: the military dictatorships characteristic of much of the third world, and the one-party regimes of the Soviet Union and its Eastern European dependencies. These are then contrasted with the modern electoral process.

# REBELLION, REVOLUTION, AND ARMED FORCE

A Comparative Study of Fifteen Countries  
with Special Emphasis on Cuba and South Africa

by D. E. H. RUSSELL

A Volume in the STUDIES IN SOCIAL DISCONTINUITY Series

The successful Cuban rebellion of 1958-1959 is often cited as proof that oppressive policies backfire, and that even the strongest army can be overcome by a resolute band of rebels. Yet the South African regime has been oppressive for many years without being disturbed by a mass rebellion. Why? The key, according to Professor Russell, author of this most original study of modern rebellions, is the willingness of the armed forces to fight for the ancien régime.

The book is primarily a systematic study of fourteen twentieth-century rebellions—seven successful and seven unsuccessful—

with special emphasis on the behavior of the establishment armed forces in each instance. It begins by comparing the oppressiveness of the regimes of pre-rebellion Cuba and present-day South Africa. Finding the South African regime even more oppressive than the Cuban regime, the author argues that, according to most theories of the etiology of rebellion and revolution, a rebellion should have occurred in South Africa. This leads to a re-evaluation of prevailing theories of the nature of rebellion in the light of detailed analysis of the fourteen actual rebellions.

# Yankee Politics in Rural Vermont

by Frank M. Bryan

Vermont has traditionally been the only one-party Republican state in the country and the only true one-party state north of the Mason-Dixon line. It is also, with the exception of Alaska, the most rural state in the nation. Frank Bryan uses Vermont as a basis for his study of the relationship between population density and politics, and of the role of one-party politics in the political system. He discusses the political change that occurred during the quarter century preceding 1972 when Vermont emerged from the outskirts of the urban-industrial age into the era of technology, noting in particular the impact that reapportionment had on the state's political development.

"Frank M. Bryan has produced a fine study while using sound statistical techniques, wrestling with vexing theories of urbanism, and convincing us that a study of tiny, rural Vermont has some relevance to broader studies of state politics. And he does this without allowing distortion to result from his deep love for the state and its predominant life style."

## THE COLD WAR BEGINS

Soviet-American Conflict Over Eastern Europe

**LYNN ETHERIDGE DAVIS**

Using recently released documents of the Departments of State and War, Professor Davis explains how the views of U.S. officials on post-war peace precluded approval of Soviet efforts to establish a sphere of influence in Eastern Europe through the imposition of Communist regimes. American officials interpreted Soviet actions as intent to expand into Western Europe, and the subsequent undermining of Allied cooperation around the world led to the Cold War.

## THE CYBERNETIC THEORY OF DECISION

New Dimensions of Political Analysis

**JOHN D. STEINBRUNER**

The author suggests that this theory generates a systematic but non-rational analysis of political events that seems to explain quite naturally decisions that are puzzling when viewed from the rational perspective. When combined with the basic understanding of human mental operations developed in cognitive psychology, the cybernetic theory of decision presents a striking picture of how decision-makers deal with the intense uncertainty and fundamental value conflicts that arise in bureaucratic politics. \$14.50

## FARM AND NATION IN MODERN JAPAN

Agrarian Nationalism, 1870-1940

**THOMAS R.H. HAVENS**

A study of agrarian thought in pre-war Japan, this book concentrates on the developing fissure between official and rural conceptions of nationalism in the late nineteenth and early twentieth centuries. Professor Havens analyzes the response of Japanese farmers and their spokesmen to the pursuit of modernization during the Meiji and Taishō periods. Based on extensive research in modern Japanese ideological, political, and economic materials, the study provides fresh grounds for doubting the state's monopoly on public loyalties during the years immediately preceding Pearl Harbor. \$15.00

## **Political Corruption: The Ghana Case**

*Victor T. LeVine.* The first full scale case study of political corruption—the “give and take of politics”—in Africa.

Using the public record (including the Commissions of Inquiry, the Reports of Accountants-General), Dr. LeVine probes the inner workings of the process of political corruption as it affected and involved institutions and the system as a whole. By focusing on political corruption as a process, the study provides insight not only into the Ghanaian case, but into similar situations elsewhere in both non-industrialized and industrialized countries.

## State and Local Government in America

GRANT & NIXON

By *Daniel R. Grant*, President, Ouachita Baptist University; and *H. C. Nixon*. This new third edition retains the most popular feature of the two previous editions—a balanced treatment of the behavioral and institutional approaches to the study of state and local government, with genuine respect for the values of each. The latest research and developments in political science have been incorporated, including: the analyses of ethnic and black politics; the new politics of ecology, environment, and consumerism; the increase of federal research and involvement in local law enforcement, crime control, and the problem of justice for the poor; the latest population statistics; recent judicial and constitutional developments and the political impact of the 26th Amendment; and trends in inter-governmental relations and federalism. All statistics, data, and tables have been brought up-to-date with new illustrations, cartoons, and anecdotes. January 1975, est. 608 pp.

## GOVERNMENT BY THE PEOPLE, Ninth Edition

James M. Burns, *Williams College*

Jack W. Peltason, *University of Illinois*

with the assistance of

Thomas E. Cronin, *The Aspen Institute for Humanistic  
Studies*

In a provocative and enlightening study, Burns and Peltason with Cronin present some critical perspectives. Contains an entirely new chapter on policy output involving the making of policy — its conflict and cooperation. Views the mounting criticisms of the system, disillusionment, and loss of faith and trust toward politics, parties and the entire governmental system.

Contending that the time for re-evaluation and re-appraisal is *now*, the authors question the reasons and consequences of discontent among the populous. Examines the pressures the system has come under in the domestic areas, encompassing crime, health care, and transportation.

Updated through the resignation of President Nixon and the Presidency of Ford, the text provides:

- New insights into the Presidency — can the Presidency be made safe for a Democracy?
- New material on impeachment and succession.
- The possible 27th Amendment.
- New developments in the area of Federalism, the so-called New Federalism.
- The new politics of the Warren Burger Court (Supreme Court).
- Discussions of Congress' weakness in Foreign Policy.

*A student Study Guide, Teacher's Manual, Test Item File, and Transparency Masters are available.*

GOVERNMENT BY THE PEOPLE is available in three editions to be published in 1975: Basic: 495 pp. \$8.95; National: 623 pp. \$10.95; National, State and Local: 777 pp. \$11.95.

“When I read IRONY in 1970 it told me that ‘Elites not masses, govern America.’ I didn’t want to believe that.”

“It told me that ‘government by the people’ exists only where elites choose to govern wisely.’ I didn’t want to believe that.”

“Then came ‘law and order,’ Watergate, the oil crisis, Nixon’s resignation . . .”

“... and now, I have a new belief: THE IRONY OF DEMOCRACY.”

**THIRD EDITION**

# THE IRONY OF DEMOCRACY

**An Uncommon Introduction to American Politics**

In a new introductory chapter stressing the cyclical nature of elite-mass interaction, Thomas R. Dye and L. Harmon Zeigler give a smooth integration of Nixon’s troubles into the evolution of **elite theory**. Their carefully revised **THIRD EDITION** of **THE IRONY OF DEMOCRACY** also includes a superb case study of the **oil lobby** and **energy crisis**; new material on **courts** (elites in Black Robes); **Elite Recruitment** (Getting to the Top); and, new coverage on the **Big Political Contributors**.

First published in 1970, **IRONY** was thought of as being “a good book for its time.” But political events of the past few years have shown **IRONY** to be more than just another “timely” American Government text. Its theoretical base—that “elites, not masses govern America”—is now more apparent than ever before.

The **WASHINGTON MONTHLY** has described **IRONY** as “**the new hot book of the political science world.**” It has been adopted by over 1,000 colleges and universities, amassing sales nearing 250,000 copies.

In addition to the new **THIRD EDITION** there is an extensive **INSTRUCTOR’S MANUAL** with graded test items prepared by John Pickering of Memphis State University.

## A PLATFORM IN THEMSELVES.

### 1. WOMEN IN POLITICS

Edited by **Jane S. Jaquette**, *Occidental College*

This book proposes that the problem surrounding female participation in politics affects everyone. It explains why this is not only a practical problem for the political system, but one which can provide insight into the study of politics itself, and perhaps even change its definition.

1974 367 pages \$14.95

### 2. SOCIAL INFORMATION PROCESSING AND STATISTICAL SYSTEMS—CHANGE AND REFORM

By **Edgar S. Dunn, Jr.**,  
*Resources for the Future, Inc.*

Dunn analyzes the types of systems used to acquire and process social data for management, public policy, and social science, and discusses the dilemma these systems pose for people trying to reconcile the need for personal privacy with the need for social order.

1974 246 pages \$12.50

### 3. THE PROPHETIC CLERGY

By **Harold E. Quinley**, *Stanford University*

The only large-scale empirical assessment of the extent to which Protestant clergymen spoke out on the important issues of the 1960s, this book evaluates activism and inactivism in the churches and demonstrates how "new breed" activism has affected local clergymen and liberal churches.

1974 369 pages \$14.00

### 4. DOLLARS FOR NATIONAL GOALS

**Looking Ahead to 1980**

By **Leonard A. Lecht**,  
*National Planning Association, Wash., D.C.*

Into which goal areas should America's dollars be channelled and in what proportion? How will recent and anticipated alterations in our social and individual aspirations affect future dollar requirements? This book examines the implications of these and other pertinent questions, considering many aspects of American life from basic health care to national defense; education to the kinds of cars Americans drive.

1974 320 pages \$17.95

### 5. ETHNICITY IN THE UNITED STATES

By **Andrew M. Greeley**,  
*National Opinion Research Center, Chicago*

Written for sociologists, political scientists, psychologists, and historians concerned with factual information and theoretical orientation about American ethnic diversity, this book presents data, interpretation, and theory about regional, national, racial, religious, and territorial diversity in the United States. A volume in the Wiley Series in Urban Research.

1974 384 pages \$14.95

### 6. COMPUTERS AND BUREAUCRATIC REFORM

**The Political Functions of Urban Information Systems**

By **Kenneth C. Laudon**, *City University of New York*

The author investigates the role of advanced information technology inter-organizational computer systems in the reform of four state and local government bureaucracies. Readers will gain more insight into the social and political values that influence the design, building, and operation of these systems.

1974 352 pages \$17.95

### 7. MAYORS IN ACTION

**Five Approaches to Urban Governance**

By **John P. Kotter** and **Paul R. Lawrence**,  
both of *Harvard University*

Based on a 2½ year examination of the administrations of twenty mayors in the 1960s, this book gives a clear picture of how mayors behave, why they behave as they do, and what impact their behavior has on urban areas. A volume in the Wiley Series in Urban Research.

## Promise and Performance of American Democracy

Second Edition

By Richard A. Watson, *University of Missouri-Columbia*

How a democratic government *should* operate, and how American government does *in fact* operate, are not the same. As in the widely adopted first edition, Watson gives a balanced assessment of the American political system—one that takes into account both the process by which public policies are made, as well as the content of those policies.

Each chapter opens dramatically, with a brief development or incident designed to stimulate interest, and show the relevance of American government to contemporary social issues. The introductory chapter contains a far more extensive discussion of the general theory of democracy than can be found in any other beginning text.

Subsequent chapters analyze such aspects of the American political process as the roles of political parties, interest groups, Congress, the President. Three major policy areas—race, poverty, foreign affairs—are also evaluated in terms of how effective our society has been in achieving social equality, economic equality, and the protection of our national interests.

In short, the book balances three major purposes of an introductory text: It provides basic factual information about American government, concepts around which to organize that information, and a critical evaluation of the American political system.

Utilizing an entirely new format and page design, the new Watson has been updated to reflect Watergate and Nixon's resignation. More attention is given to criticisms of our government, including information on the increasing disillusionment of many Americans with the credibility of governmental officials. It provides new material on abortion, obscenity, and impeachment, with a new section that incorporates James Barber's analysis of the various "personality" or "character" types that have served as Chief Executive.

As proven by the many adoptions of the First Edition, *Watson works* in the classroom.

**The Plot That Failed:**

**Nixon and the Administrative Presidency**

By Richard P. Nathan, *Brookings Institute*

Prior to the 1972 election, Nixon, Haldeman, and Ehrlichman decided that in order to achieve the Administration's major domestic policy objectives, they needed to gain control over the management and machinery of domestic affairs. Watergate was their downfall.

THE PLOT THAT FAILED is Richard Nathan's perceptive account of the Nixon attempt to command the federal bureaucracy—the attempt of the “Administrative Presidency.” Nathan, an HEW official in the Nixon administration for four years, provides a timely, authoritative view of a scheme narrowly avoided.

**Serving The Few:**

**Corporate Capitalism and the Bias of Government Policy**

By Edward S. Greenberg, *University of Colorado*

“. . . modern government is not a set of neutral institutions responsive to the public will [but is, instead] the instrument by which corporate capitalism attempts to fashion for itself a stable environment conducive to steady expansion and healthy profitability.”

SERVING THE FEW is a Marxist analysis of the unjust distribution of benefits in American capitalism. It is also a macro-level description of the American Political System. Providing a close interplay between theoretical issues and an empirical examination of American life, it raises questions about the functions of government for the larger social and economic systems, and shows how government intervention affects the distribution of costs and benefits among social classes.

Kenneth Dolbeare, on SERVING THE FEW: “It is well-written, historically grounded, substantive, analytical and provocative. . . . I would be very proud to have written this book.”

# Morlan for Government

The new Second Edition of *American Government: Policy and Process*, by Robert L. Morlan, is updated through the impact of the Watergate crisis on American politics, the resignation of Richard Nixon, and the beginnings of the Ford administration.

Receiving expanded treatment are such topics as interest groups, the politics of bureaucracy, the role of public opinion, and others. New developments such as convention reform and the changing role of the presidency are also explored. Throughout is a greater stress on the problems of ethics in politics and political reform.

### INTERNATIONAL RELATIONS ON THE PLANET EARTH

---

*David J. Finlay and Thomas Hovet, Jr.*

*What is the status of international relations now?  
How do current decisions affect the future?  
What will the next 20 years—7304 days—bring?*

This forward-looking introduction to international politics confronts these and other basic questions about the present and the future. The book is based on the premise that the study of international relations should be concerned with the multiplicity of decision options that governments and individuals face in international and related national activities. Emphasis is on the dilemmas inherent in the world-encompassing web of twentieth-century politics, economics, communications, and science.

Historical and contemporary examples are used to focus attention on three fundamental problems which affect the entire international system—man and his physical environment, the growing disparity between developed and developing nations, and the escalating arms race.

How the system, both institutionalized and informal, is organized to deal with current problems and how the decision-making process works are examined in detail.

Tentative: 352 pages; \$9.95; cloth. March 1975.

## CONGRESSIONAL POWER

Congress and Social Change

GARY ORFIELD, *The Brookings Institution*

This incisive, compelling analysis of congressional policymaking examines recent legislative proceedings in three major areas—civil rights, education, and employment—and demonstrates clearly that in the field of domestic social policy Congress is a dynamic, effective, and progressive agent for social change. The author suggests that much of the current criticism of Congress is misdirected—that the problem lies not with Congress as an institution but rather with the political parties and individual members of the Congress. He argues that congressional reforms now being urged would have minimal effect, since the fundamental constraints on a more progressive Congress are public opinion, the electoral process, and the system of frozen incumbencies.

## WHY THEY CALL IT POLITICS Second Edition

ROBERT SHERRILL

The new second edition of *Why They Call It Politics* is a provocative, telling introduction to American government written largely in terms of the conduct, corruptibility, and mismanagement of our governmental institutions. Extensively revised and brought up to date for this edition, the book includes new material on topics of vital importance: presidential abuses of power, the 1972 elections, Watergate, the present composition of the Supreme Court, congressional reform proposals, voter apathy, and the irrelevance of elections to crucial issues and events. Mr. Sherrill is highly critical of the conduct of American politics and substantiates his argument with abundant examples, direct quotes, and anecdotes that illustrate the breakdown of the bureaucracy. ## TOWARD A DEMOCRACY

A Brief Introduction to American Government

LOUIS W. KOENIG, *New York University*

This timely, practical textbook offers a constructive approach to understanding and improving American democracy. Professor Koenig examines the institutions and processes of American government in the light of their democratic ideals, discusses how those institutions and processes have fallen short of those ideals, and provides in each chapter a list of proposals for improving the American political system. Throughout the text, the author accords considerable attention to non-elites and demonstrates how they can best improve their political effectiveness. A test booklet with behavioral objectives accompanies the textbook.

**New –  
ON GOVERNMENT AND POLITICS,  
THIRD EDITION**

by D. George Kousoulas. Provides all the fundamentals in a low-level, well-written, balanced approach. It's brief and paperbound. And Kousoulas doesn't confuse beginning students by presupposing that they have any background in political science. The approach is eclectic and comparative. Spring 1975. 420 pages. 6½ x 9¼. Paperbound. Instructor's Manual.

The new core text that puts People back into Politics and Ethics back into Political Science . . .

## **POLITICS FOR HUMAN BEINGS**

by Robert A. Isaak and Ralph P. Hummel. The approach is humanistic; the focus on human interaction. The authors examine politics in terms of human needs. So it's obvious that **we're all involved in Politics**. They explore the simplest political unit (2 people) and gradually broaden their survey to American politics, comparative politics, international politics, and political theory. January 1975. 350 pages. 7 x 10. Paperbound. Cartoons. Instructor's manual.

Do you want a politically balanced approach for your beginning American Government students?

## **POWER AND POLITICS IN AMERICA, SECOND EDITION**

by Leonard Freedman. A text that views American politics from five perspectives—Radical Left, Liberal Critics, Centrists, Conservative Critics, Radical Right—noting that each has important sources of strength; each is affected by some serious political weaknesses. First, Freedman gives the student basic information on a process,

institution, or policy; then immediately places this material in a living framework. 440 pages. 6½ x 9¼. Flexible binding. Expanded Instructor's Manual with test items.

## **The National Policy Game: A Simulation of Congressional Executive Relations**

By John Foster, Thomas A. Henderson, and Daniel Barbee, all of *Georgia State University*

This is not a book—it's a game! It's designed to simulate the process of preparing the national budget.

To play the game, students assume the roles of congressmen, bureaucrats, OM & B members, lobbyists, and the press. Following the provided instructions, they perform the complex maneuvers required by the process, and learn while they interact! They are furnished with tear-out score/work sheets, as well as suggestions for background reading.

THE NATIONAL POLICY GAME has been classroom-tested at three major universities and found to be an exciting, discussion-perking innovation—ideal as a supplement for courses in American Government, Public Policy, Public Administration, or Budgeting. Available with an Instructor's Manual. April 1975

## **The Troubled Republic: American Government, Its Principles and Problems**

By Fred R. Mabbutt and Gerald J. Ghelfi, both of *Santa Ana College*

Our Founders stated, in the Declaration of Independence, what they deemed to be just political conduct. Using the Declaration as a benchmark, this book examines the philosophical justification behind such principles as majority rule, liberty, rights, equality—then measures contemporary politics in this light.

THE TROUBLED REPUBLIC features an up-to-date examination of our judicial system, emphasizing the Nixon Court and the Watergate controversy. It also contains an innovative chapter, "Civil Rights in the Twenty-first Century"—a futuristic examination based on current constitutional law and questions. 1974 360 pages \$5.95-paper

## **International Politics Since World War II: SECOND EDITION**

**A Short History** By Charles L. Robertson, *Smith College*

Robertson's new edition provides a detailed historical summary of international affairs since World War II. It attempts to derive broad patterns from these affairs and relate them to social, technological, and other underlying changes in the environment. And it is one of the only books to treat these events on a *global* basis—not just from the standpoint of American foreign policy.

The new edition has been reorganized, expanded, and rewritten to cover the period from 1945 and deal more specifically with the events and political changes of the last decade. March 1975

## **International Law and National Behavior:**

**A Behavioral Interpretation of Contemporary International Law and Politics**

By Ahmed Sheikh, *Western Illinois University*

In the first major attempt to treat the "applied" aspect of International Law, this text utilizes a new conceptualization: International Law as *process*, *dynamic force*, and *independent variable* in international politics. It is the first book on a textbook level to answer such questions as, How, when, why, and to what extent do nations—

- feel impelled to develop new laws and abolish old ones?
- use International Law as a tool of foreign policy?
- comply with or ignore existing laws, depending on the circumstances?

It also analyzes the motivation and attitudes of many non-Western countries with regard to International Law observance, in light of their foreign policy objectives.

# The Politics of Revenue Sharing

BY PAUL R. DOMMEL

The author of this searching study traces the evolution of revenue-sharing legislation in the House Ways and Means Committee, the Senate Finance Committee, and elsewhere. He reveals the complex political maneuvers that brought about final passage and considers the long-term implications of the Nixon policy of using revenue-sharing funds as a substitute for other federal grants.

# The Last Days of United Pakistan

BY G. W. CHOUDHURY

Why was Pakistan unable to produce a democratic political order in which both East and West could co-exist? The author of this insider's report on Pakistan's political upheavals examines the conduct of Mujibur Rahman of Bangladesh and Z. A. Bhutto of "new" Pakistan, and analyzes the reasons why President Yahya Khan's efforts to preserve a united Pakistan were unsuccessful.

# America and the World Political Economy

## *Atlantic Dreams and National Realities*

BY DAVID P. CALLEO AND BENJAMIN M. ROWLAND

"... an ambitious book that goes further in integrating the languages and logics of economics and politics than any that I have read in a long time. . . . Calleo's and Rowland's book is a terse, often eloquent analysis of the 'political economy' of contemporary international relationships." —Robert L. Heilbroner, *New York Review of Books*

“...the most current, topical, and provocative introductory text on the market today”

**Democracy  
Under Pressure**  
AN INTRODUCTION TO  
THE AMERICAN POLITICAL SYSTEM  
SECOND EDITION

MILTON C. CUMMINGS, JR.,  
The Johns Hopkins University  
DAVID WISE,  
political analyst and author of  
*The Politics of Lying: Government  
Deception, Secrecy, and Power*

654 pages

“Even better than the first edition. I especially like the extensive use of examples and pictures. It is one of the few texts that make it difficult to fall asleep while reading.”

—OWEN NEWCOMER, College of the Canyons

“*Democracy Under Pressure* is an exceptional text. I am impressed by its concern for historical accuracy, meaningful rhetoric, and provocative illustrations. Most importantly *Democracy Under Pressure* communicates to young people in a way that is only rarely matched by other books in the field of American Government.”

—CHRISTOPHER HOLLOWAY, Mesa State College

“Outstanding in content, style, and readability.”

—P. C. McLaurin, Jr.,  
Mississippi State University

“The book is a fine text in American Government—informative and timely and quite complete.”

—ROBERT W. LANGRAN, Villanova University

“The Second Edition of Cummings and Wise makes the most interesting reading of any new American government text I have examined.”

—JIM R. ALEXANDER, Midwestern University

“The Second Edition is undoubtedly the most current, topical, and provocative introductory text on the market today. Its format makes reading and learning more of an experience than a chore, even to students with no background in American government. This is one of the few texts that students should find hard to put down.”

—WILLIAM H. JERVEY, JR.,  
Florida Technological University

“An experience that should be shared by all students of American Government.”

—ARTHUR C. HILL,  
Metropolitan Community College
