Aims and Scope: The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

Publishing, Advertising, and Subscription Offices: Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK (for U.K. and elsewhere).

2014 Subscription Information: *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623)

is published quarterly in January, April, July, and October by Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473; Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK. Annual institutional subscription rates for Volume 30 (2014): Institutions online only US \$560.00, and online only UK and elsewhere £321.00. Individuals online only US \$281.00, and online only UK and elsewhere £158.00. Single part: US \$102.66 in the U.S.A., Canada and Mexico; UK £58.85 and elsewhere. Online only for all institutions. Print editions ceasing for 2014. Back volume prices are available upon request. *International Journal of Technology Assessment in Health Care* and other Cambridge journals can be found at <http://journals.cambridge.org>

CONTENTS

Editorial

- 343 Volume 30: Public Health Interventions and Nutrition as a Preventative Health Technology
Irene Lenoir-Wijnkoop

Assessments

- 345 Economic evaluation of diagnostic localization following biochemical prostate cancer recurrence
Daniel A. Barocas, Mark E. Bensink, Kristin Berry, Zahra Musa, Carolyn Bodnar, Robert Dann and Scott D. Ramsey
- 354 Economic evaluation of nebulized magnesium sulphate in acute severe asthma in children
Stavros Petrou, Angela Boland, Kamran Khan, Colin Powell, Ruwanthi Kolamunnage-Dona, John Lowe, Iolo Doull, Kerry Hood and Paula Williamson
- 361 Rapid assessment of bilateral cochlear implantation for children in kazakhstan
Lyazzat Kosherbayeva, David Hailey and Laura Kozhageldiyeva
- 366 Coronary bypass surgery versus percutaneous coronary intervention: cost-effectiveness in Iran: a study in patients with multivessel coronary artery disease
Mehdi Javanbakht, Raziieh Yazdani Bakhsh, Atefeh Mashayekhi, Hossein Ghaderi and Masoumeh Sadeghi
- 374 Usability of online psychoeducation for siblings of people with psychosis
Jacqueline Sin, Claire Henderson and Ian Norman
- 381 Are policy decisions on surgical procedures informed by robust economic evidence? A systematic review
Roberta Ara, Hasan Basarir, Anju D. Keetharuth, Marco Barbieri, Helen L.A. Weatherly, Mark J.S. Sculpher, Hashim Ahmed and Steven Brown
- 394 Economic evaluation of an influenza immunization strategy of healthy children
Meghann Gregg, Gordon Blackhouse, Mark Loeb and Ron Goeree
- 400 Cost-effectiveness of navigated radiofrequency ablation for hepatocellular carcinoma in China
Yizhen Lai, Kai Li, Junbo Li and Sheena Xin Liu
- 409 Benefits of mobile reporting systems in social home care: the case of seven swedish municipalities
Shengnan Han, Gustaf Juell-Skielse, Åsa Smedberg, Parisa Aasi and Anders G. Nilsson

Methods

- 416 Generating Health Technology Assessment evidence for rare diseases
Karen Facey, Alicia Granados, Gordon Guyatt, Alastair Kent, Nilay Shah, Gert Jan van der Wilt and Durhane Wong-Rieger
- 423 The contribution of different information sources to identify adverse effects of a medical device: a case study using a systematic review of spinal fusion
Su Golder, Kath Wright and Mark Rodgers
- 430 What's in a name? Developing definitions for common Health Technology Assessment product types of the International Network of Agencies for Health Technology Assessment (INAHTA)
Tracy Merlin, David Tamblyn, Benjamin Ellery
- 438 Synthesis of evidence for reimbursement decisions: a Bayesian reanalysis
Willem Woertman, Rene Sluiter and Gert Jan van der Wilt

- 446** An internet-based method to elicit experts' beliefs for Bayesian priors: a case study in intracranial stent evaluation
Leslie Pibouleau and Sylvie Chevret
- 454** Identifying and selecting new procedures for health technology assessment: a decade of nice experience in the United Kingdom
Bruce Campbell, Rebekah Morris, Lakshmi Mandava, Lakshmi Murthy, Helen Gallo, Koh Jun Ong, Ali Latif and Hannah Patrick
- 461** Use of expert knowledge elicitation to estimate parameters in health economic decision models
David Hadorn, Giorgi Kvizhinadze, Lucie Collinson and Tony Blakely

Policies

- 469** Economic cost of treatment of childhood epilepsy in Enugu, Southeast Nigeria
Maduka D. Ughasoro, Obinna E. Onwujekwe and Ngozika C. Ojinnaka
