# The Journal of Laryngology and Otology

(FOUNDED in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

G. H. BATEMAN

ASSISTANT EDITOR

LIONEL TAYLOR

1. Original articles which have not been published elsewhere are invited and should be sent to the Editor. They are considered for publication on the understanding that they are contributed to this *Journal* solely. Reproduction elsewhere, in whole or in part, is not permitted without the previous written consent of the Author and Editor and the customary acknowledgement must be made.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced. Captions to illustrations should be typed on a separate sheet and sent at the same time as original photographs, etc.

The Harvard system of recording references should be used, e.g. GREEN, C., and BROWN, D. (1951) *J. Laryng.*, 65, 33. Abbreviations of Journals should follow the style recommended in *World Medical Periodicals*, published by World Health Organization, 1952.

It is most important that authors should verify *personally* the accuracy of every reference before submitting a paper for publication.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked, and no extra matter added. Proofs should be returned within 5 days.

4. Illustration blocks are provided free up to the limit of £10 per article; beyond this authors are expected to pay half the cost. Coloured illustrations will be charged in full to authors.

Blocks will normally be held by the Printers for three years after which they will be destroyed. Any author who has borne a part of the cost of his blocks is entitled to have these returned to him, but a request for this must be sent within three years of the appearance of the article, to HEADLEY BROTHERS, 109 Kingsway, London, WC2.

5. Orders for reprints must be sent when returning galley proofs, and for this purpose special forms are supplied.

6. Authors of original communications on Oto-Laryngology in other journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

7. Editorial communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS, 109 Kingsway, London, WC2.

8. The annual subscription (as from January 1964) is five guineas sterling (U.S.A. \$15) post free, and payable in advance.

9. Single copies will be on sale at 10s. 0d. each (as from January 1964, 12s. 6d.); copies of parts up to Vol. LXIII which are available may be purchased at 7s. 6d. each.

10. All subscriptions, advertising and business communications should be sent to the publishers, HEADLEY BROTHERS, 109 KINGSWAY, LONDON, WC2.

## *United States of America*

Orders for this *Journal* may be sent through local bookseller, or to STECHERT-HAFNER, INC., 31-33 East 10th Street, New York, or direct to the publishers, HEADLEY BROTHERS, 109 KINGSWAY, LONDON, WC2, England.

*St. Augustine*

Fifteen hundred years ago, St. Augustine advised his readers to "hear the other side." Today, your patients with a hearing problem will welcome the same advice from you. Just mention Ingrams.

Ingrams can help your patients to "hear the other side," for they do not represent any one manufacturer and are thus able to give completely impartial advice about hearing aids.

Ingrams help your patient to choose from twenty-six different makes. This is the largest selection in the country—and some of the most modern aids are exclusive to Ingrams.

This is why you, like so many E.N.T. Specialists, can confidently advise your patients to hear the full story from Ingrams *before* they buy a hearing aid.

## The Royal National Throat, Nose and Ear Hospital

GRAY'S INN ROAD, LONDON, W.C.1, and GOLDEN SQUARE, W.1

Associated with the INSTITUTE OF LARYNGOLOGY AND OTOTOLOGY

Applications are invited for two non-resident posts of SENIOR HOUSE OFFICER.

The Board has decided to alter the structure of the Registrar training programme. On the 1st February and 1st August in each year two posts will become available in the grade of Senior House Officer. They will be tenable for six months in this grade, followed by two years in the grade of Registrar and six months in the grade of Senior Registrar. Successful applicants will be expected to complete the full three years' training programme, which will provide attachment for a period of six months to each of five of the surgical "firms" of the Hospital, including the Professorial Unit, giving a broad training in all aspects of Otorhinolaryngology. A period will also be spent in the supporting departments and clinics of the Hospital, such as Pathology, Radiology, Audiology, General Medicine, Neurology, Allergy and Plastic Surgery. Candidates will normally be expected to have passed the Primary Examination for Fellowship of a Royal College of Surgeons but consideration will also be given to previous experience in the Specialty.

The next two posts will become available on 1st February, 1964, and application forms, obtainable from the undersigned, should be returned by 30th November, 1963.

# 'OTOSPORIN'

The modern method of treatment in otitis externa, chronic suppurative otitis media, and infected mastoid cavities, is 'Otosporin' Drops. 'Otosporin' is an aqueous suspension containing neomycin and polymyxin B which are together effective against practically all the bacteria found in ear infections. In addition, it contains hydrocortisone to reduce inflammation and swelling, thereby providing easier access for the antibiotics.

'OTOSPORIN' BRAND Drops ISSUED IN BOTTLES OF 5 ml.
