AFGHANISTAN

LOUIS DUPREE

The ancient land and the modern nation of Afghanistan is the subject of Louis Dupree's sweeping narrative. Mr. Dupree's encyclopedic account is divided, for convenience, into four parts: the land, the people, the past, and the present (the beginning of modern Afghanistan, its social and political development from the nineteenth century to the 1970's). The book includes an epilogue on the possible effects on Afghanistan's future of the *coup d'état* of July 1973. "The book is unrivalled for the comprehensiveness of its coverage. . . . I do not know a better source to consult if one has a question about almost any aspect of Afghan geography, history, culture, or society."—Robert G. Landen, *History* \$22.50

"Shillony has written a readable, perceptive account of a crucial incident in Japanese history. He goes beyond the simple descriptive. His treatment is suggestive of broader implications. He evokes an image of attitude of mind still to be found albeit dressed in different clothes—certainly not military uniform."

FLOWERS OF FIRE: Twentieth Century Korean Stories

edited by Peter H. Lee

Twenty stories and a novella which illustrate the amazing development of literature in Korea despite 50 years of war, revolution, and turmoil. The stories are earthy, grimly realistic portrayals of the life of the urban and country poor. Many of them appear here for the first time in a Western language.

FORMOSA: Licensed Revolution and the Home Rule Movement, 1895-1945

by George H. Kerr

Under Japanese rule resistance became organized, but after restoration to China at the end of World War II the Formosans were bitterly disappointed when they failed to maintain gains made during the Japanese era. The author, long residing in and observing Formosa, is well qualified to comment on the island's history and prospects.
