

## INDEX OF AUTHORS

Adeniyi, F. A.	561	Kelleher, C. A.	515	Olson, R. E.	393
Allen, S. A.	421	Kelly, N. C.	469, 481	Pennie, K.	491
Bannister, D. W.	541	Lamand, M.	515	Preece, R.	403
Bender, A. E.	413	Large, S.	393	Reeds, P. J.	445, 491
Cadenhead, A.	445	Lee, Y. S.	457	Sheppard, H.	403
Chamberlain, D. G.	469, 481	Levin, R. J.	435	Smith, B. S. W.	533
Evans, S. E.	525	Lobley, G. E.	445, 491	Stevenson, M. H.	551
Fuller, M. F.	445	Lock, S.	413	Stewart, R. J. C.	403
Glover, J.	393	Lovie, J. M.	491	Syme, G.	435
Heaton, F. W.	561	McDonald, J. D.	445	Thanangkul, O.	393
Herzberg, G. R.	571	Mason, J.	515	Thomas, P. C.	469, 481
Ingram, D. L.	525	Mathers, J. C.	503	Wait, M. K.	469, 481
Jackson, N.	551	Mercer, J. R.	421	Waterlow, J. C.	403
Janmohamed, N.	571	Miller, E. L.	421, 503	Whitehead, C. C.	541
		Milne, V.	491	Wright, H.	533
		Naito, H.	457		
		Neal, G.	393		
		Noguchi, T.	457		

## FORTHCOMING PAPERS

The next issue of the *British Journal of Nutrition* will appear in July, 1980. It is hoped to publish in it the following papers:

Glucose and urea kinetics in cows in early lactation. By I. BRUCKENTAL, J. D. OLDHAM and J. D. SUTTON  
 Studies on copper and cobalt in dairy calves. By J. K. MARO, J. A. KATEGILE and H. HVIDSTEN  
 Metabolic effects of a low-magnesium diet in pigs. By P. J. NUORANNE, R. P. RAUNIO, P. SAUKKO and H. KARPPANEN

Energy balance and metabolic rate in preterm infants fed with standard and high-energy formulas. By O. G. BROOKE

The effect of level of feed intake on the incorporation of acetate into lipids and its distribution among various tissues in sheep. By T. E. BROAD and M. J. ULYATT

Circadian rhythm of hepatic and muscular cathepsin A, C and D activities and free amino acids of blood in growing rats—influence of feeding schedule. By CHRISTINE OBLED, M. ARNAL and C. VALIN

The total content of vitamin D in human milk and cow's milk. By E. LEERBECK and HELGE SONDERGAARD  
 The measurement of gastric transit time in obese subjects using  $^{24}\text{Na}$ , and the effect of meal composition on gastric emptying and satiety. By P. WILMSHURST and J. C. W. CRAWLEY

The effect of restricted grazing on the fatty acid composition of ovine milk fat during early lactation. By E. PAYNE and P. V. RATTRAY

The effects of diet on some metabolic enzymes in the small intestinal mucosa during lactation in the rat. By MAUREEN F. PALMER and B. A. ROLLS

The response of liver enzymes to feed restriction and subsequent *ad lib.* feeding in the laying hen. By J. PEARCE

## CONTENTS

### Papers of direct relevance to CLINICAL AND HUMAN NUTRITION

- The early changes in retinol-binding protein and prealbumin concentrations in plasma of protein-energy malnourished children after treatment with retinol and an improved diet. By SUZANNE LARGE, G. NEAL, J. GLOVER, O. THANANGKUL and R. E. OLSON 393-402
- The effect of rehabilitation at different stages of development of rats marginally malnourished for ten to twelve generations. By R. J. C. STEWART, HILDA SHEPPARD, R. PREECE and J. C. WARTERLOW 403-412
- Measurement of chemically-available iron in foods by incubation with human gastric juice *in vitro*. By SUSAN LOCK and A. E. BENDER 413-420

### Papers on GENERAL NUTRITION

- Rumen bacterial protein synthesis and the proportion of dietary protein escaping degradation in the rumen of sheep. By J. R. MERCER, SARAH A. ALLEN and E. L. MILLER 421-433
- The validity of assessing changes in intestinal absorption mechanisms for dietary sugars with non-metabolizable analogues (glucalogues). By GABRIELLE SYME and R. J. LEVIN 435-443
- Protein turnover in growing pigs. Effects of age and food intake. By P. J. REEDS, A. CADENHEAD, M. F. FULLER, G. E. LOBLEY and J. D. McDONALD 445-455
- Phosphopeptides and soluble calcium in the small intestine of rats given a casein diet. By Y. S. LEE, T. NOGUCHI and H. NAITO 457-467
- The nutritive value of silages. Digestion of nitrogenous constituents in sheep receiving diets of grass and silage and grass silage and barley. By P. C. THOMAS, D. G. CHAMBERLAIN, N. C. KELLY and M. K. WAIT 469-479
- The nutritive value of silages. Digestion of organic matter, gross energy and carbohydrate constituents in the rumen and intestines of sheep receiving diets of grass silage or grass silage and barley. By P. C. THOMAS, D. G. CHAMBERLAIN, N. C. KELLY and M. K. WAIT 481-489
- Whole body and tissue protein synthesis in cattle. By G. E. LOBLEY, VIVIEN MILNE, JOAN M. LOVIE, P. J. REEDS and K. PENNIE 491-502
- A simple procedure using <sup>35</sup>S incorporation for the measurement of microbial and undegraded food protein in ruminant digesta. By J. C. MATHERS and E. L. MILLER 503-514
- The fate of <sup>99</sup>Mo-labelled sodium tetrathiomolybdate after duodenal administration in sheep: the effect on caeruloplasmin (EC 1.16.3.1) diamine oxidase activity and plasma copper. By J. MASON, M. LAMAND and C. A. KELLEHER 515-523
- Dependence of thyroxine utilization rate on dietary composition. By D. L. INGRAM and S. E. EVANS 525-531
- The response of serum 25-hydroxyvitamin D concentrations to vitamin D intake and insolation in sheep. By B. S. W. SMITH and H. WRIGHT 533-540
- Biotin status, blood pyruvate carboxylase (EC 6.4.1.1) activity and performance in broilers under different conditions of bird husbandry and diet processing. By C. C. WHITEHEAD and D. W. BANNISTER 541-549
- Effects of withdrawal of copper sulphate from the diet of the mature domestic fowl with special reference to production and tissue mineral content. By MARY H. STEVENSON and N. JACKSON 551-559
- The effect of zinc deficiency on alkaline phosphatase (EC 3.1.3.1) and its isoenzymes. By F. A. ADENIYI and F. W. HEATON 561-569
- Regulation of hepatic lipogenesis by dietary maize oil or tripalmitin in the meal-fed mouse. By G. R. HERZBERG and N. JANMOHAMED 571-579
