

PETER R. ESCOBEDO

For members of the emergency service team, the learning never stops.

Join us at EMS Today for extraordinary workshops and conference sessions, continuing education credits and fun all in one great place: Seattle!

This is the nation's premier emergency medical conference, first choice of EMTs, paramedics, nurses, instructors, physicians and administrators—now in its twelfth year.

Sponsored by Jems Communications, EMS Today will be held in Seattle from February 24 to 27, 1994. It's your opportunity to attend exciting and topical educational sessions, meet old friends and new professional colleagues and learn how today's most innovative emergency service ideas are being put into practice.

For a FREE brochure, call 800/266-JEMS or complete the coupon below.

Send me a FREE EMS Today conference brochure with all the details.

"The window was open...

and the LIFEPAK[®] defibrillator was sitting on the engine cover of our rig. As we turned a sharp corner the defib slipped off its perch and flew right out the window and bounced down the road. But when the service rep checked it there were just a few scrapes across the top, and the only interior damage was a loose chip which he replaced."

DON BARKLAGE, BATTALION CHIEF, DEPARTMENT OF FIRE AND RESCUE SERVICES
CITY OF FAIRFAX, VIRGINIA, USA

This is one customer's experience – you should not generally expect Physio-Control defibrillators to withstand this type of punishment.

Laerdal is pleased to announce the 1993 catalog of our complete line of lifesaving products.

Our new 92-page catalog features all our products, accessories and parts, including exciting new additions for '93. We've also included illustrated parts breakdown and pricing sections, resource material and customer and technical support services information.

We think you'll also enjoy the features on the background of Resusci Anne, CPR, emergency medicine and the Chain of Survival.

You will find pages of useful information, from simple ordering guidelines to product updates. Toll-free information and fax services.

Call and order your free copy today!
